

**On the roots of Haydn with "Café Mozart"
A perfect combination of Wine and Music**

Burgenland is the eastern-most state of Austria. In this region we find the Neusiedler See as well as the capital, Eisenstadt. Here, in the center of town, is the grand family seat of the Esterhazy family, Schloss Esterhazy, where the renowned composer, Joseph Haydn, worked as chapel master. Next to an amazing Flora and Fauna we discover highlights like the Frauenkirchen Basilica or the natural sanctuary Lange Lacke.

The Music

"Café Mozart", the Chamber Music Ensemble, is performing music from the late 18th century. Increasingly their focus is on Haydn and his English associates in the 1790s. Enjoy music "Haydn and the Earl of Abingdon" in the home country of Haydn. Discover the culture, the landscape and the wine experience in that UNESCO World Heritage region.

Wines with Body and Fruit

Around the shores of this shallow steppe lake ripens an extensive variety of grapes for white, red and sweet wines. The hot, dry summers and cold winters here serve the ideal conditions for a long ripening period.

Wine lovers discover dry, fresh wines, as well as those that are concentrated and aromatic, plus some of the most famous sweet wines in the world. The special microclimate of the Seewinkel is ideal for firm, confident red wines and the internationally renowned sweet wines like Beerenauslese and Trockenbeerenauslese. These specialities have contributed to the impressive reputation of Burgenland Wines in the world.
