AISEMO

AISEMO offers a flexible and intelligent overall software solution for connecting machine parks with a large number of injection molding machines. The combination of highly-optimized sensors and AI-based analysis software recalculates usage in a single system.

B.A.M. Ticketing

B.A.M. Ticketing is a tech startup specialized in developing tamper-proof digital NFT ticketing for events secured by blockchain technology, eliminating black markets, and adding revenue from secondary trading.

Purency

Purency developed the "Microplastics Finder," a machine learning-based software that analyzes microplastics levels in samples within minutes using μ FTIR spectrometers.

QuickSpeech

QuickSpeech is an EduTech company founded offering AI-based learning experiences as a SaaS model. The platform gamifies training content into short, "snackable" lessons, motivating users to train every day.

SATIAMO

The software solution ELOGATE developed by SATIAMO makes it possible to digitalize transport processes. By connecting shippers, carriers, goods recipients, suppliers, and truck drivers transport-related processes and digitalized, thus making them more efficient, transparent, and environmentally friendly.

stAPPtronics

Health Tech Startup stAPPtronics develops innovative medical technology products allowing for advanced rehabilitation, improved long-term health, greater efficiencies in treatment, and long-term well-being.

Sticklett Technologies

Sticklett Technologies develops smart textile wearables for children and babies that provide information about their vitals in real time.

VIABIRDS Technologies

The vision of VIABIRDS is to develop the most convenient e-commerce solution for "people on the move" (daily commuters). Flyby.store, a drive-in supermarket, is VIABIRDS' first product and was launched in November 2021.

Wormsystems

Wormsystems is a B2C company targeting environmentally friendly people. The 'Wurmbox', developed by Wormsystems, makes it possible to compost organic waste in your own home, generating valuable soil in a stylish wooden stool or box.

13.00 – 14.00 **LUNCHBREAK AND NETWORKING**

UP NEXT **STARTUP WORLD CUP AUSTRIA**
