The Global Incubator Network (GIN) is the single point of contact in Austria for startups, investors and incubators. It connects the Austrian startup ecosystem with hotspots in Asia (Hong Kong, Israel, Japan, Singapore, South Korea and China). GIN offers free-of-charge programs and services for startups interested in Austria. With GIN's goAustria program, qualified international startups can go through a tailor-made incubation and internationalization program to set up a European base in Austria, giving them access to the whole European Union and its single market with over 500 million customers.

GIN is looking for:

- Asian startups interested in setting up in Austria and Europe
- Cooperation Partners and Investors interested in working with Austrian startups
