AUSTRIAN PARTICIPANTS – ARTIFICIAL INTELLIGENCE

AS PER MAR 04, 2024

NAME CONTACT PRODUCT	SUMMARY	LOOKING FOR
<p>¹ CityRiddler GmbH E contact@cityriddler.com W www.cityriddler.com</p> <p>Tanja Zigart <i>Co-Founder & CEO</i> LinkedIn Profile</p> <p>Deivis Shomo <i>Co-Founder & CFO</i> LinkedIn Profile</p> <p>OFFER Tourism, Gastronomy, and Hospitality:</p> <p>Personalized and AI-based city adventures as your personal assistant.</p>	<p>CityRiddler is an innovative company revolutionizing urban exploration by providing a personalized and interactive way to discover a city's history and culture. Utilizing an advanced AI generator, the company crafts custom experiences through engaging riddles that cater to the user's interests. With CityRiddler, tourists have the flexibility to choose the duration, starting point, and endpoint of their adventure. The riddles are informative, weaving the city's tales and secrets into the experience, while the proprietary GenAI algorithm also considers weather, crowd levels, and personal preferences to optimize the journey. In a market where standard and generic tours are the norm, CityRiddler stands out by offering unique, tailored experiences for each individual user.</p>	<ul style="list-style-type: none">- Corporates such as KLOOK and KKDAY- Investors / Venture Capitalists / Business Angels- Potential Customers- Public Institutions such as the Tourism Board

NAME CONTACT PRODUCT	SUMMARY	LOOKING FOR
<p>2 Geosaic GmbH E office@geosaic.at W www.geosaic.ai</p> <p>Johannes Amtmann <i>Founder & CEO</i> LinkedIn Profile</p> <p>OFFER <i>GreenTech for sustainable energy:</i></p> <p>AI with Geosciences: significantly enhances data analysis, prediction accuracy, and operational efficiency in geothermal energy projects.</p>	<p>Geosaic has merged artificial intelligence with geosciences to advance geothermal energy production. Their main project, MALEG (Machine Learning for Enhancing Geothermal Energy Production), showcases a seamless integration for client customers by enhancing geothermal plant efficiencies, signalling a leap towards sustainable energy.</p> <p>Their dedication to innovation and training in the geosciences field is setting new benchmarks for the future of renewable energy, driving the industry towards a greener, more sustainable future.</p>	<ul style="list-style-type: none"> - Corporates - Potential Customers - Collaboration Partners (e.g. Joint Venture) - Public Institutions
<p>3 InFraRed City E info@infrared.city W infrared.city</p> <p>Angelos Chronis <i>Co-Founder & CEO</i> LinkedIn Profile</p> <p>Christos Chatzakis <i>Co-Founder & CTO</i> LinkedIn Profile</p> <p>OFFER <i>Real Estate & Construction:</i></p> <p>Platform for intelligent and resilient urban design based on Artificial Intelligence.</p>	<p>InFraReD makes climate simulations accessible. Their state-of-the-art open-source AI models can predict complex climate simulations in real-time providing architects, planners and developers instant feedback on the environmental performance of their designs and intelligently guide their sustainable design decisions. InFraReD follows a "Simulation as a Service" model, offering simulation results to all, from end-users to other software providers through its successful and awarded software prototypes.</p> <p>They are the only ones globally to currently offer tested and validated real-time wind comfort simulations. With the models they are currently building the AEC customers (designers, architects, engineers, and city planners) will be able to gain unique competencies that no competitor currently offers</p>	<ul style="list-style-type: none"> - Corporates - Investors / Venture Capitalists / Business Angels - Potential Customers - Collaboration Partners (e.g. Joint Venture) - Business Partners/Clients (e.g. Distributors, Manufacturers) - Public Institutions - Institutions (Universities, Laboratories, etc.)

LOOKING FOR

<p>4 medaia GmbH E office@medaia.at W skinscreener.com/en</p> <p>Klaus Poier <i>Business Relations</i> LinkedIn Profile</p> <p>OFFER <i>Health Care & MedTech:</i></p> <p>SkinScreener, a fully visual AI-based app for early detection of skin cancer.</p>	<p>SkinScreener will be the first fully visual AI-based medical device for detecting, preventing and risk assessment of malignin and non-malignin skin cancer. Developed for the layperson to use it easily via the app and mobile phone to do a first risk assessment. The result is shown in the colours green (low risk) yellow (medium risk) and red (high risk). So only the yellow risks lead to the teledermatological option and the red ones to an appointment with the dermatologist. This triage leads to a smooth patient flow to dermatologists and prevents overfilled lines, which helps to reduce extra costs and waiting time.</p> <p>This app has been certified as an MDR Class IIa which provides 95% accuracy, according to Med Uni Graz.</p>	<ul style="list-style-type: none"> - Corporates - Investors / Venture Capitalists / Business Angels - Potential Customers - Business Partners/Clients (e.g. Distributors, Manufacturers) - Public Institutions
<p>5 mlxar (d.b.a. Atlas) E hi@atlas.design W atlas.design</p> <p>Benjamin James <i>CEO</i> LinkedIn Profile</p> <p>Robin Simons <i>Director of Operations</i> LinkedIn Profile</p> <p>OFFER <i>Entertainment, Virtual Reality & Augmented Reality:</i></p> <p>An AI creative virtual world-builder and 3D asset generator</p>	<p>Atlas is about democratizing 3D content creation and digital world-building. The development team has spent 3 years creating innovative 3D AI technology that is distinguished by a focus on editability and the application of Trustworthy AI principles.</p> <p>Their approach is to use AI as a collaborative design partner to augment and improve creative workflows, especially within gaming. The AI Engine works by using reference images and/or text as an input to generate all aspects of virtual worlds (mainly buildings & landscapes). They are the first 3D AI company to achieve meaningful traction not only with top-tier organisations but also in the gaming industry. Their software is already being used and experimented with by top-tier Gaming organizations such as Square Enix, and Sony as well as many others.</p>	<ul style="list-style-type: none"> - Corporates - Potential Customers
