BlueSky Immunotherapies GmbH http://www.bluesky-itx.com	Mr Michael TSCHEPPE Chief Financial Officer E. m.tscheppe@blueskyvaccines.com https://www.linkedin.com/in/michael-tscheppe-774b413a/	BlueSky Immunotherapies GmbH is a clinical-stage biotech company in Vienna. The company's focus is on the discovery and development of next generation immunotherapies against cancer and infectious diseases using its own proprietary novel interferon-inducing viral vector technology platform. The technology is based on a safe, genetically modified influenza vector (delNS106) that induces a strong immune response and can overcome the immunosuppression created by cancers. Moreover, the vector can express tumor-specific antigens to stimulate specific immunity against different types of cancer, thus opening the door to a promising treatment option that acts on several levels. BlueSky is getting promising data from its clinical trial phase 1 and is actively looking for Series A financing and strategic partners in Asia.
Life Science Austria /Vienna (LISA) http://www.lifescienceaustria.at/	Mrs Sonja POLAN International Marketing Manager T. +43 1 501 75 510 E. s.polan@aws.at https://www.linkedin.com/in/sonja-polan-3b56524/	Life Science Austria (LISA) is Austria's national body promoting Austrian life science on the international stage. It is the first point of call for international companies looking to set up operations in Austria or to identify Austrian partners for joint development or as suppliers. Contact them to get in contact to the nearly 1,000 innovative Austrian partners in the biotech, pharmaceutical, medical technology and digital health sectors LISA works with.

		LISA positions Austria as a hub for the life science sector in the heart of Europe. International organisations and companies can contact LISA for all matters concerning potential cooperation partners, investment opportunities and how projects could be accelerated via working in or with Austria.
Medicus AI http://www.medicus.ai	Mr. Francisco Vega, Head of New Markets and MD China-Hong Kong E. francisco@medicus.ai https://www.linkedin.com/in/vegafrancisco/	Medicus AI is a smart platform that interprets and translates medical reports and health data into easy-to-understand, personalized health insights and explanations, test recommendations and on-going health and lifestyle tips. Medicus' Medical Reasoning engine understands biomarker data, vitals, family history, medications covering the most tested blood, urine and stool markers. Their smart health coaching delivers tips and actionable steps towards building sustainable healthy habits.
