### RIEGL Laser Measurement Systems

**Marcos Garcia**

*Business Development*

*Manager*

*Riegl Asia Pacific Ltd.*

**E** [mgarcia@riegl.asia](mailto:mgarcia@riegl.asia)

**W** <http://www.riegl.com/>

#### PRODUCT

Innovative 3D laser scanning solutions for mobile, terrestrial, aerial, industrial and unmanned applications.

Applications include topography, mining, surveying, architecture, archaeology, monitoring, civil engineering and city modeling.

RIEGL is an international leading provider of cutting-edge technology in airborne, mobile, terrestrial, industrial and unmanned laser scanning solutions.

RIEGL has been producing LiDAR systems commercially and focuses on pulsed time-of-flight laser radar technology in multiple wavelengths.

RIEGL's core technology, the digitization of LiDAR signals ("Waveform LiDAR"), provides a unique methodology for resolving range ambiguities, multiple targets per laser shots, optimum distribution of measurements, calibrated amplitudes and reflectance estimates, as well as the seamless integration and calibration of systems.

RIEGL's Ultimate LiDARTM 3D scanners offer a wide array of performance characteristics and serve as a platform for continuing Innovation in 3D for the LiDAR industry.

RIEGL already has reference projects in Hong Kong.

End-users in public and private sector for 3D-laser measurement.

**RIEGL's terrestrial laser scanners provide detailed and highly accurate 3D data rapidly and efficiently.**

### RUBNER TIMBER ENGINEERING

**Phyllis Chong**

*Business Development*

*Manager (Asia)*

**W**

<https://www.rubner.com/de/gruppe/>

**L**

<https://www.linkedin.com/company/rubner/mycompany/>

#### PRODUCT

Timber engineering and construction.

Rubner Holzbau is a leading timber engineering and construction company in Europe. The company group has started their passion for wood since 1926. They specialise in glued laminated timber (glulam) and exclusively use timber from sustainable managed forest certified by PEFC (Programme for Endorsement of Forest Certification). Rubner have many outstanding projects – residential housing, commercial & industrial buildings, infrastructure, sports and education centres. They offer a full range of services from cad planning to production, delivery, and assembly. Alternatively, Rubner manufacture glulam kits based on the client's planning documents. Multiple projects done in Asia such as Philippines Mactan Cebu International Airport, which won the prestigious award at World Architecture Festival.

Cooperation partners for projects in Hong Kong and Government agencies.

**Rubner is the leading expert for customised timber construction solutions – with several associated companies spread across different locations in various countries all around the globe.**
