

LIST OF AUSTRIAN PARTICIPANTS Version: August 24, 2026

ORGANIZATION	NAME POSITION CONTACT DETAILS	SELF DESCRIPTION
EVER Neuro Pharma GmbH http://www.everpharma.com	Mr Julian WONG Senior Market Access Manager T. +852 9122 8945 E. julian.wong@everpharma.asia https://www.linkedin.com/in/julian-wong-20013746/	EVER Pharma is a fully integrated specialty pharmaceuticals company dedicated to the research, development, production, and commercialization of products in neurology and specialty injectables, including oncology, intensive care, and hormone therapeutics. Based in Austria, the company operates a dynamic facility that provides innovative products and value-added formulations aimed at enhancing patients' lives and supporting healthcare professionals through improved convenience and safety. Products are developed and manufactured at EU GMP certified facilities in Austria and Germany, specializing in complex injectables such as high potency and controlled substances, crystal suspensions, as well as oily solutions in vials, pre-filled syringes, cartridges, implants, and ampoules. EVER Pharma markets its products in over 80 countries worldwide through international affiliates and strategic partners.
g-tec Medical Engineering GmbH https://www.gtec.at/	Ms Christy LI Regional Sales APAC, Hong Kong T. +852 9382 1530 E. li@gtec.at https://www.linkedin.com/in/christyltk/	g.tec medical engineering GmbH has been developing and producing high-performance brain computer interface neuro- technology and CE-certified & FDA cleared medical devices for more than 20 years. g.tec systems are internationally used in clinical or research purposes e.g., analysis of brain, heart or muscle activity, brain assessments of severe brain injuries and disorders of consciousness, stroke neurorehabilitation, neuromarketing, deep brain stimulation, brain mapping, neuro prosthesis-control, communication, painting and closed-loop invasive and non-invasive BCI experiments. g.tec also organizes the yearly BCI Award for the world's most innovative BCI project and the BCI & Neurotechnology Spring School, a 10-day online event full of scientific talks from BCI experts.

		The company has sales offices in Hong Kong covering the Asia Pacific region. g-tec is looking for physiotherapists / nurses / neurologists who are interested in starting a neurorehabilitation franchise business. Also would like to get in contact with neurosurgeons with an interest in rapid and precise brain mapping for epilepsy and brain tumour patients and university/product development researchers with an interest in high quality brain computer interface and neuromarketing research systems.
MacroArray Diagnostics GmbH https://www.madx.com/	Mr Vincent CHEN Sales Director East Asia & ANZ T. +65 9691 7753 E. v.chen@macroarraydx.com https://www.linkedin.com/in/vincent-chen-99257b/ Mr Wyman WONG Disturbed by WorgPharmaceuticals (Zhejiang) Co. Ltd. T. +852 6372 0218 E. wywong@worgpharma.com	The ALEX³ test, developed by Austrian company MADx (Macro Array Diagnostics), is an advanced allergy diagnostic solution that provides a comprehensive and highly precise analysis of allergic sensitisation. Using cutting-edge multiplex technology, it delivers a detailed allergy profile from a single blood sample, covering 82 allergen extracts and 218 molecular allergens, making it one of the most comprehensive panels available. Founded in 2016, MADx serves laboratories, hospitals, medical practices, and allergy centres in more than 90 countries, supporting healthcare professionals with accurate, efficient, and patient-friendly diagnostics while advancing the field of molecular allergy testing.
SOMAREALITY https://www.somareality.com	Ms Julia KERN Co-CEO E. julia.kern@somareality.com https://www.linkedin.com/in/kernjulia/ Local contact in Hong Kong T. +852 2604 9389 E. general@amscl.com	SOMAREALITY specializes in developing algorithms based on eye-tracking data, revolutionizing the understanding and real-time monitoring of cognitive processes. This is enabled by a proprietary method that filters neural activity from environmental effects such as brightness. The technology has applications across UI/UX design, automotive cockpit research, aircraft interface optimization, advertising effectiveness analysis, and XR immersive experience design. In the healthcare sector, eye-tracking data can support the early detection and monitoring of neurological and cognitive conditions, including Alzheimer's disease, dementia, Parkinson's disease, and autism.
Vienna Chamber of Commerce and Industry https://www.wko.at/wien	Ms Monica NG Chief Representative (China) @ Austrian Trade Commission T. +852 2522 2388 E. viennachamber@advantageaustria.org https://www.linkedin.com/in/monica-ng-28ba2ab/	The Vienna Chamber of Commerce & Industry (VCCI) represents the interests of its 144,000 members and is also a service provider for them. The Chamber is a strong advocator for promoting the Austrian capital as "Health Metropolis Vienna". State-of-the-art medicine and affordable access to high quality care and health services combined with excellent research and innovative enterprises make Vienna a global leader in

healthcare. Newsletter on Health Metropolis Vienna is available on a quarterly basis.
