Study in Austria

Austria is situated in the heart of Europe and offers an ideal place to live and study for Hong Kong students. Its capital Vienna has been ranked as the city with the highest quality of living worldwide for ten consecutive years and has been awarded with the title of greenest city worldwide in 2020. Not only is Vienna known as the world's music capital full of traditions and culture, but it is also an important hub within Europe. Due to its location, Vienna has the ideal connection between Western and Eastern Europe and therefore is an interesting city for students from all over the world. But also the universities located in other student cities within Austria (such as Innsbruck, Salzburg, Linz, Graz or Klagenfurt) have rich history and offer interesting study programs for internationals. Given that Austria is a member of the European Union, all offered programmes are internationally acknowledged.

The Education System

Kindergarten

In Austria, the educational career has its start in Kindergarten. One year before entering primary school, children are obliged to attend one Kindergarten year. The idea behind this mandatory year is to provide children with the necessary skills they need for school.

Primary Education (Volksschule)

After Kindergarten, children enter into primary school at the age of 6. Primary school has a duration of 4 years and is mandatory for everyone. Most primary schools in Austria are taught exclusively in German, however, there are individual private primary schools across the country who have specialized in English.

Secondary Education

Austria offers 2 levels of secondary education.

Secondary level 1 lasts for 4 years. Students can choose between new secondary school (Neue Mittelschule - formally known as Hauptschule), academic secondary school lower level (AHS Unterstufe) as well as special needs schools and inclusive education.

Secondary level 2 also lasts for a total of 4 years, with the following options: secondary technical or "polytechnical" schools (= schools preparing students for an apprenticeship or job), vocational schools and apprenticeships (dual system), vocational secondary schools, vocational colleges (3-year education), upper level of grammar schools (higher secondary schools of general education) as well as the vocational preparatory year and integrative vocational education.

Higher Education

There is a wide variety of higher educational institutions in Austria. A total of 22 Austrian universities (www.studienwahl.at/en) offer a broad range of study options for students. 6 Austrian Universities of Arts offer creative education programmes on music, theatre, film, fine or applied arts. Furthermore, Austria has 21 Universities of Applied Sciences (Fachhochschulen; www.fachhochschulen.at) that offer a combined total of 264 degree programmes. In addition, there are 12 private universities (Privatuniversitäten; www.oepuk.ac.at) and 14 Teacher Training Colleges and Institutes.

Some 500 different study options in numerous fields are available in Austria. Depending on the field of study, the number of applicants and the size of the university the application criteria varies. In total, international students make up 26% of the Austria's college student body. The majority of international students originate from one of Austria's neighboring countries (mostly Germany and Italy) or from another EU Member country. After the EU, students from Asia form the second largest group with 8.4%. Please visit <https://studyinaustria.at/en/> for study programmes offered in Austria, as well as a leaflet with listed Austrian universities, the structure

of the Austrian education system and all relevant details regarding tuition fees, accommodation, residency & visa etc.

You can find more information on the Austrian education system and Austria's participation in International exchange programmes on the following webpage:

www.advantageaustria.org/cn/education

Language Requirements

As Austria is a German-speaking country, you might wish to attend a German-speaking study program. Please consider that you should start learning German early enough to ensure that your German level is high enough in order to follow an academic class.

Those who do not want to attend an entirely German university program have the chance to enroll in a study program taught in English. please visit <https://www.studienwahl.at/en> for further information on English programs. In general, there are no universal language requirements which can be apply to all universities. For the specific required language level please refer to the homepage of the respective university you are interested in.

Residency and Visa

In order to study in Austria as a non-member of the European Union, you need to apply for a residence permit for study purposes. You should hand in your application including your letter of admission at least three months before entering Austria. In addition, you will have to prove your sufficient financial means, which comes up to HK\$ 100,000 for students under the age of 24 and HK\$ 120,000 for students above this age. For more information please visit the homepage of the Austrian Foreign Ministry

<https://www.bmeia.gv.at/en/general-consulate-hongkong>

Financial Means

One academic year comprises two semesters, each of around four or five months. When preparing and considering a study program in Austria, the cost of living should be considered. Living expenses, especially housing, can vary greatly depending on the city of study. But in general, all living expenses will be approximately HK\$8,000 per month. In order to help you with your living expenses and your studies in Austria, various grants and scholarships are provided at the following database: <https://grants.at/en/>. Furthermore, you can check out the website of OeAD to check whether you are eligible for affordable housing. In general, the OeAD-Housing Office allocates vacant residence places to international scholarship holders and exchange students at Austrian universities and colleges as well as other educational institutions and recognized private universities in Austria. <https://housing.oead.at/en/>

Scholarships

The Austrian government, many private institutions and some universities offer scholarships for students. Scholarships are managed by a special agency - the Austrian Exchange Service (OeAD - Österreichischer Austauschdienst). If you are interested in financial support for studying in Austria please visit www.grants.at/en.

奧地利升學資訊

奧地利位於歐洲的心臟地帶，是香港學生理想的生活和學習場所。其首都維也納已連續十年被評為全球生活質量最高的城市，並於 2020 年被授予全球最綠色的城市的稱號。維也納不僅被譽為充滿傳統和文化的音樂之都，由於其地理位置，維也納也是西歐和東歐之間的理想紐帶，因此對來自世界各地的學生來說是一個有趣的城市。位於奧地利其他城市（如因斯布魯克、薩爾茨堡、林茨、格拉茨或克拉根福）的大學也擁有悠久的歷史，並為國際學生提供有趣的學習課程。雖然奧地利的官方語言為德語，但近年眾多公立和私立大學相繼開設英語輔助課程，甚至以全英語教學，為只懂英語的學生，提供另一留學的好平台。由於奧地利政府對教育方面全力資助，令公立大學的學費非常經濟（低於每年九千港元），私立大學的學費亦非常相宜（平均每年低於十萬港元），生活費（包括食宿、交通、醫療保險等）平均約為每月六、七千港元，同時大學生更可利用課餘兼職每週不多於二十小時。奧地利乃歐盟國的成員，提供國際認可的課程，絕對是適合香港及澳門學生居住及升學的一個好地方！
