Introducing

PlanRadar

Digitise your daily projects to save time, cut costs and ensure high-quality completion.

Why go digital with PlanRadar?

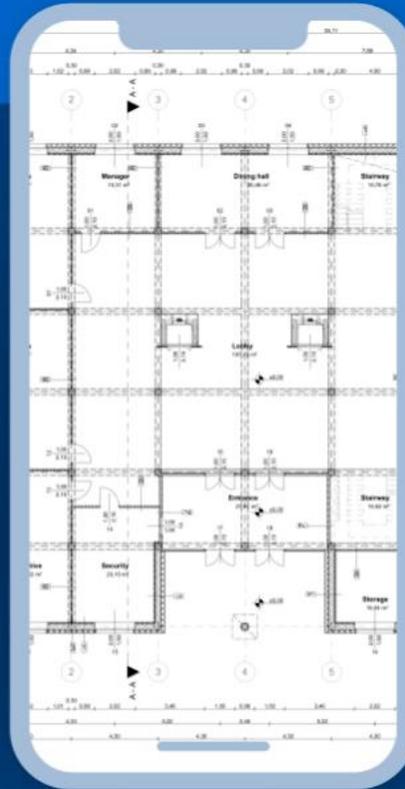

Stay organised & prevent data loss with all project information at your fingertips

Track tasks and defects on the go, even when you're offline

Monitor statistics via bespoke statistics board in real time

Seamlessly coordinate with project partners, by all working to the same plans, documents and tasks

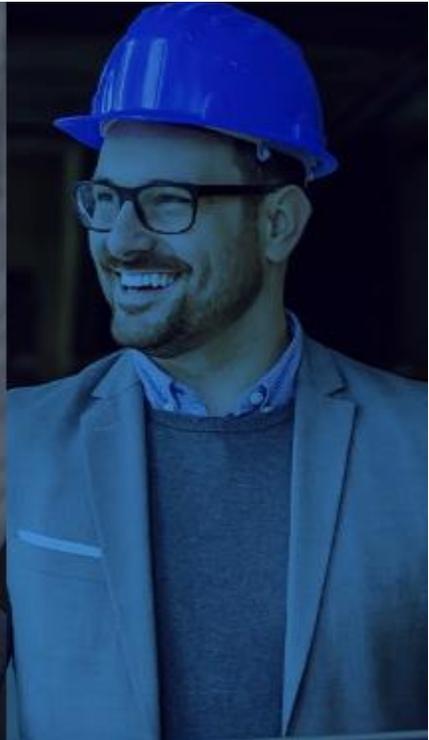

Collaborate live from the office to the project site and assign tasks instantly

Export reports in seconds using out-of-the-box or custom templates, eliminating post-site processing time

Who benefits?

Speciality Contractors

Protect your margins & guarantee compliance

General Contractors

Keep the build on-time and on-budget

Facility- & Property Managers

Manage and optimise your property operations with smart insights

Owners & Developers

Increase profitability with full project oversight, visibility and control

Architects

Get work delivered to match the design

Engineers

Ensure project compliance every time

Overview

PlanRadar for Construction

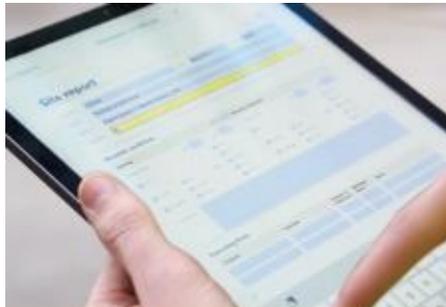

Build it right, first time

Track project progress, connect with your team and solve issues in one central platform

Quality Assurance

Manage defects digitally for faster and easier quality management.

Site Diaries

Make daily reporting on your site quicker, simpler and smarter.

Handovers

Standardise your handovers for a better client experience.

Site Inspections & Safety Audits

Save valuable time during inspections and avoid follow-up paperwork.

Evidence Collection & Claims Management

Digitally record the facts of your construction project to ensure due diligence and provide a single source of truth.

Overview

PlanRadar for Facility & Property Managers

Increase Property Efficiency

Track project progress, connect with your team and solve issues in one central platform.

Fault Recording

Manage faults digitally for less downtime and higher client satisfaction.

Handovers

Prevent errors and confusion by using a consistent handover protocol.

Inspections, Checklists & Safety Audits

Communicate in real-time and schedule recurring tasks, for complete compliance with regulations and safety standards.

Evidence Collection & Claims Management

Digitally record the facts to ensure due diligence and provide a source of truth.

Mapping of Assets

Track all assets and optimise their deployment.

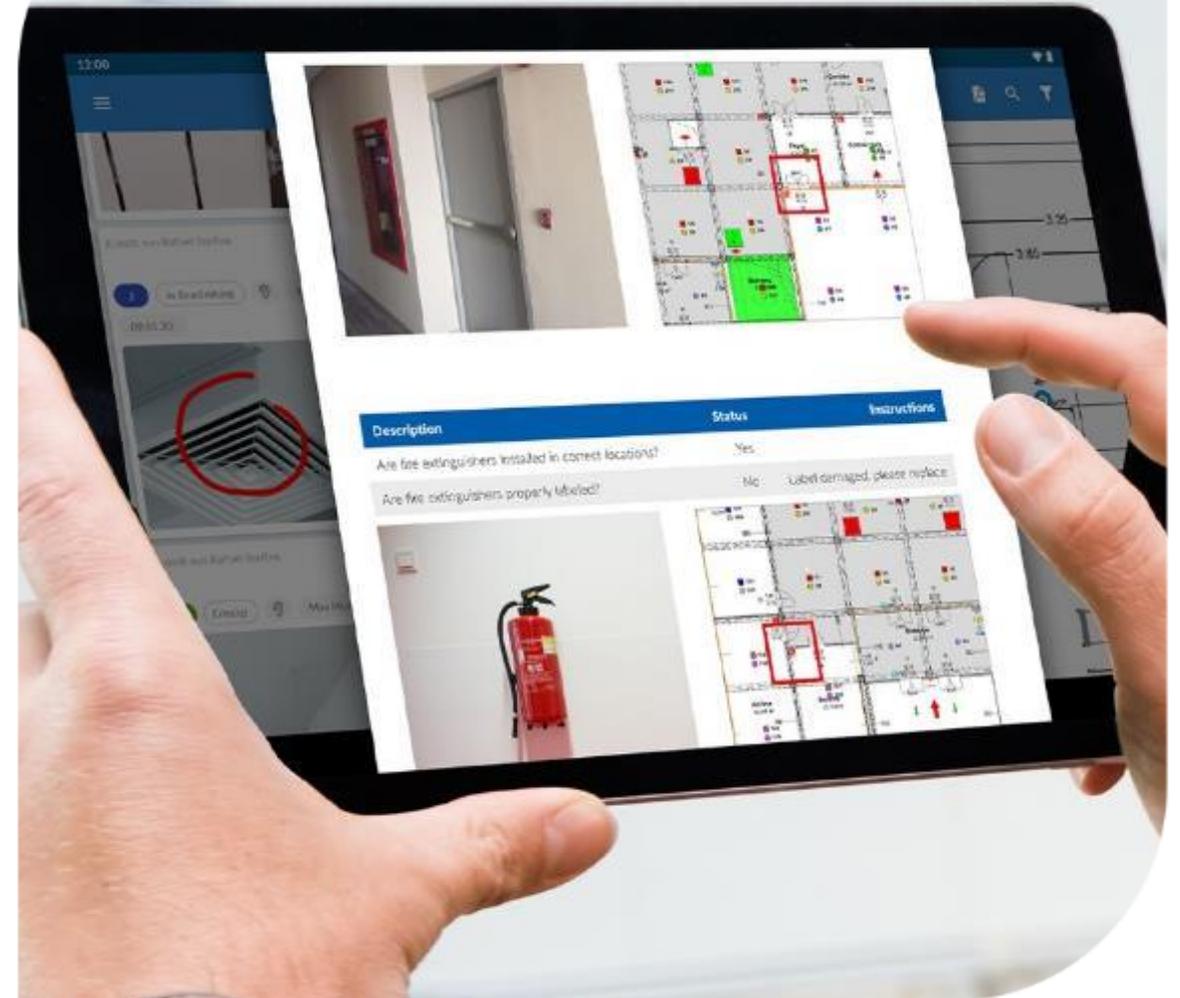

Maintenance & Repairs

Save time, maximise resources and save money with efficient planning and implementation of ongoing maintenance or one-off repairs.

Site Inspections & Safety Audits

Save valuable time during inspections and avoid follow-up paperwork

- Record facts as you move around the site using out-of-the-box forms or create custom forms, containing the data fields you want to collect
- Flag issues immediately during an inspection
- Assign repairs directly to the relevant team member in real time
- Assign users as “Watchers”, so they can view the data from inspections without having to visit the site
- Create custom inspection reports at the touch of a button and send straight to stakeholders directly from your phone
- Customise data captured for different kinds of inspections including; commissioning, quality control, site audits, fire safety assessments, handovers and more

Why go digital with PlanRadar?

A one-of-a-kind platform

- Built for you and free to configure at any time
- Quick onboarding means no down time
- Easy to use interface, with 3 click maximum navigation
- Free training and support throughout
- Upscale easily at anytime
- Superior integration capabilities
- Futureproof platform with a robust product roadmap

Trustworthy

- Protect against dispute and litigation with tamperproof audit trail
- Security & data privacy: AWS – 2 factor authentication, SSO
- GDPR & ISO compliant
- Gold standard support program

Taking your business to the next level

- Generate PDF reports in 20 seconds
- Unlimited free of charge subcontractors and stakeholders
- Giving you the competitive edge with real time insights and data
- NFC technology

FIVE GUYS

“At CBRE, we are always on the lookout for new digital tools that add value to our customers and make our work easier for our employees. With PlanRadar we have found a product that meets both requirements - and a team that knows the market, listens and constantly evolves the product.

—CBRE

Efficiency is the goal &
Digitalization is the way to achieve it &
PlanRadar is the tool to achieve it
