

Better with wood

RUBNER

WE LIVE TIMBER ENGINEERING

**Austrian Technology Days
17 - 22 March 2024
Chongqing, Foshan and Hong Kong**

Where our growth began. 我们的成长开始的地方。
The Rubner family. 鲁布纳家族。

Over the years and generations, the Rubner family has build up a strong and innovative business around wood that is seeped in a long tradition.

And although we are no longer a small family business and the 4th generation is already working in the company, we still do business with a handshake and a well-grounded down-to-earth attitude. We take responsibility for our employees, for our partners, for our environment.

多年来，鲁布纳（Rubner）家族在悠久的传统中围绕木材建立了强大且创新的业务。

尽管我们不再是一家小型家族企业，第四代已经在公司工作，但我们仍然以握手和脚踏实地的态度做生意。我们对员工、合作伙伴和环境负责。

24
companies 公司

4 **Main Divisions:**

WHY USING TIMBER 为什么使用木材

- Low carbon/sustainable/renewable material
- 低碳/可持续/可再生材料
- Help to reduce green gas house emission
- 有助于减少温室气体排放
- Reusable/recycle material
- 可重复使用/回收材料
- Building for future generation
- 为下一代建设
- Prefabrication
- 预制化
- Speed of Construction
- 施工速度
- Flexible choice of geometry
- 灵活选择几何形状
- Lightweight material
- 轻质材质
- Wide spanning structures
- 大跨度结

What's next? 下一步是什么?

Plan your first timber project with us. 与我们一起规划您的第一个木材项目。
