Thank you for visiting our ADVANTAGE AUSTRIA booth at the DOERS Summit Limassol 2026. We are very proud to participate, for the second consecutive year, as Partner Country at Cyprus' largest technology and startup event. Formerly known as the Reflect Festival, the rebranded DOERS Summit has firmly established itself as a key international platform for startups, scale-ups and innovators, with strong outreach to SEE and the MENA region. For our Austrian startups, it provides an excellent stage to take their next internationalization steps. The event is part of go-international, a joint initiative of the Austrian Federal Ministry for Economy, Energy and Tourism and the Austrian Federal Economic Chamber.

For many of Austria's Born Global Champions, Cyprus is often associated with sun, beach and a year-round, summer-inspired lifestyle rather than with innovation and technology. Yet this perception has changed significantly. According to the EU Innovation Scoreboard, Cyprus has climbed the ranks from a Moderate Innovator to a Strong Innovator and has emerged as an innovation hotspot. Notably, 7 of the EU's 38 Innovation Excellence Centres are located on the island. Combined with Cyprus' strategic geographic position, its founder-friendly business environment, competitive tax framework and double taxation agreements with over 60 countries, including Austria, the island has become an attractive destination for entrepreneurs and investors alike.

2026 is a particularly significant year for Cyprus, as the country has assumed the EU Council Presidency for the first half of the year. With innovation and technology high on the Presidency's agenda, all eyes are on Cyprus and the European innovation ecosystem, with the DOERS Summit serving as its flagship event. This year's Austrian delegation reflects a broad range of innovative use cases — from digital claims management, autonomous window-cleaning drones, localization and translation, to an AI-based hospitality concierge and international communications. All Austrian DOERS represented at the AUSTRIA booth and in the DOERS Pitch share one common goal: to build new partnerships and unlock sustainable growth opportunities in and through Cyprus. I wish you inspiring encounters and fruitful cooperation with our participating Austrian startups. Καλές δουλειές!

Yours sincerely,

Christoph Sturm  
The Austrian Trade Commissioner

## PARTICIPATING COMPANIES

Digital Claims Management

Autonomous Window-Cleaning Drones

Localization & Translation Platform

AI-Concierge for Hospitality

International Communications Consultancy

**crashwise FlexkapG**

Ziestgasse 2, 1140 Vienna

M +43 664 4800930

E [matthias.schmidt@crashwise.app](mailto:matthias.schmidt@crashwise.app)

W [www.crashwise.app](http://www.crashwise.app)

Crashwise digitizes and automates the entire accident process—from incident capture to settlement.

Our AI-powered platform collects, validates, and structures accident data in real time, generates automated damage reports and signed PDFs, and connects fleets, insurers, and repair networks in one seamless digital workflow.

This helps companies reduce admin effort, vehicle downtime, and repair costs.

**DIGITAL ACCIDENT MANAGEMENT**

**For companies with vehicle fleets**

Crashwise supports companies with vehicle fleets in the digital handling of accidents.

Flying4Home is developing the world's first autonomous household drone for window cleaning.

By voice command - via smart home systems - the drone takes off from its charging station, flies independently from window to window and cleans each one in turn, even when you are not at home.

Fully automatic return to base, charging and preparation for the next use allow daily operation without effort.

An interdisciplinary five-member team is working on bringing this innovative solution to market for the home of the future.

## FLYING4HOME

### Lets household robots take to the air

Flying4Home welcomes investors for marketing and production.

LingoHub is an AI-powered localization platform for apps and websites.

Around 1,500 companies, including Spotify, Adidas, ESL Gaming, and Erste Bank, rely on its cloud-based solution to manage translations in one place and streamline localization workflows.

Built as a single source of truth, LingoHub integrates seamlessly with existing tech stacks to keep product, engineering, design, and localization teams aligned.

LINA delivers context-aware, brand-true translations, while LINGUIST ensures automated quality control and technical validation for faster, more consistent global growth.

### MASTER GLOBAL CONTENT AT SCALE

#### Structural excellence for multilingual localization projects

As an AI-powered translation management platform, LingoHub is tailored for international organizations managing multifaceted content with structure and precision.

The solution empowers teams to master industry-specific terminology and multi-layered workflows, ensuring seamless digital collaboration, efficiency, and consistency for global brand communication.

Majourny – The AI-Powered Virtual Employee for Hospitality.

Majourny digitizes and automates the interaction between hotel guests and operations. Our platform features a 24/7 AI-Concierge for instant guest support, mobile ordering, and a smart Upsell Engine to boost revenue.

The core of the system is the TeamHub: a digital backend for housekeeping, real-time task management, and a centralized knowledge base.

We significantly reduce staff workload and transform traditional hotel operations into high-efficiency digital ecosystems, allowing your team to focus on hospitality.

**MARKET ENTRY & PARTNERSHIPS  
IN MEDITERRANEAN HOSPITALITY**

**Upscale & Luxury Hospitality**

The company is actively seeking 3- to 5-star hotels as clients in Greece and Cyprus looking to digitize their guest communication and internal operations.

Goal is to partner with Mediterranean hospitality businesses to implement our AI Concierge and automated Task Management (TeamHub) to help overcome labor shortages and drive incremental revenue.

## analytra

© zflys GmbH

zflys is an international communications consultancy.

communicare [Latin] = "to connect" is the core principle: bringing people and brands together.

The focus is on the people, both within the company and those interacting with it, as well as on all communication challenges, whether involving internal dialogue with oneself or external dialogue with others.

The zflys AI tool analytra complements this with data-driven perspectives and strategic clarity. With zflys, communication becomes intentionally better. Analogue and digital.

### CONNECT WITH YOUR BRAND

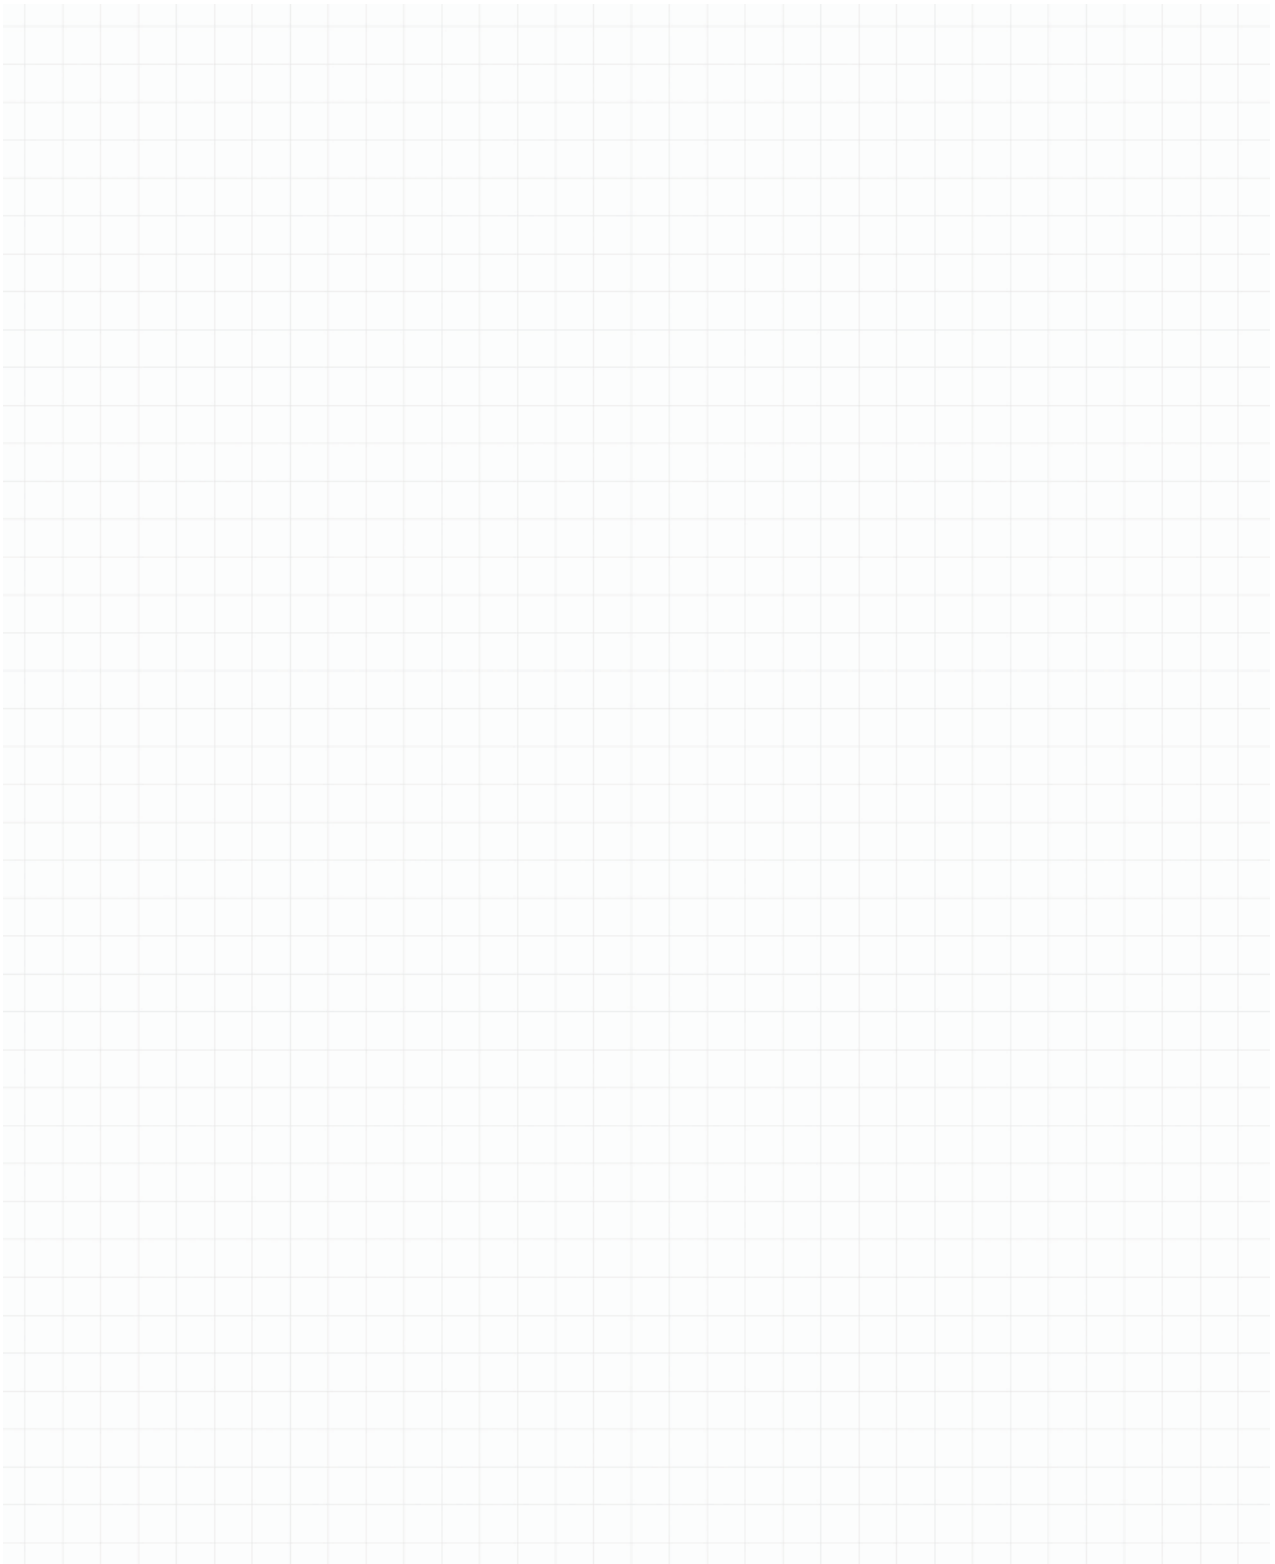

#### **zflys is the right choice if communication gets on your nerves**

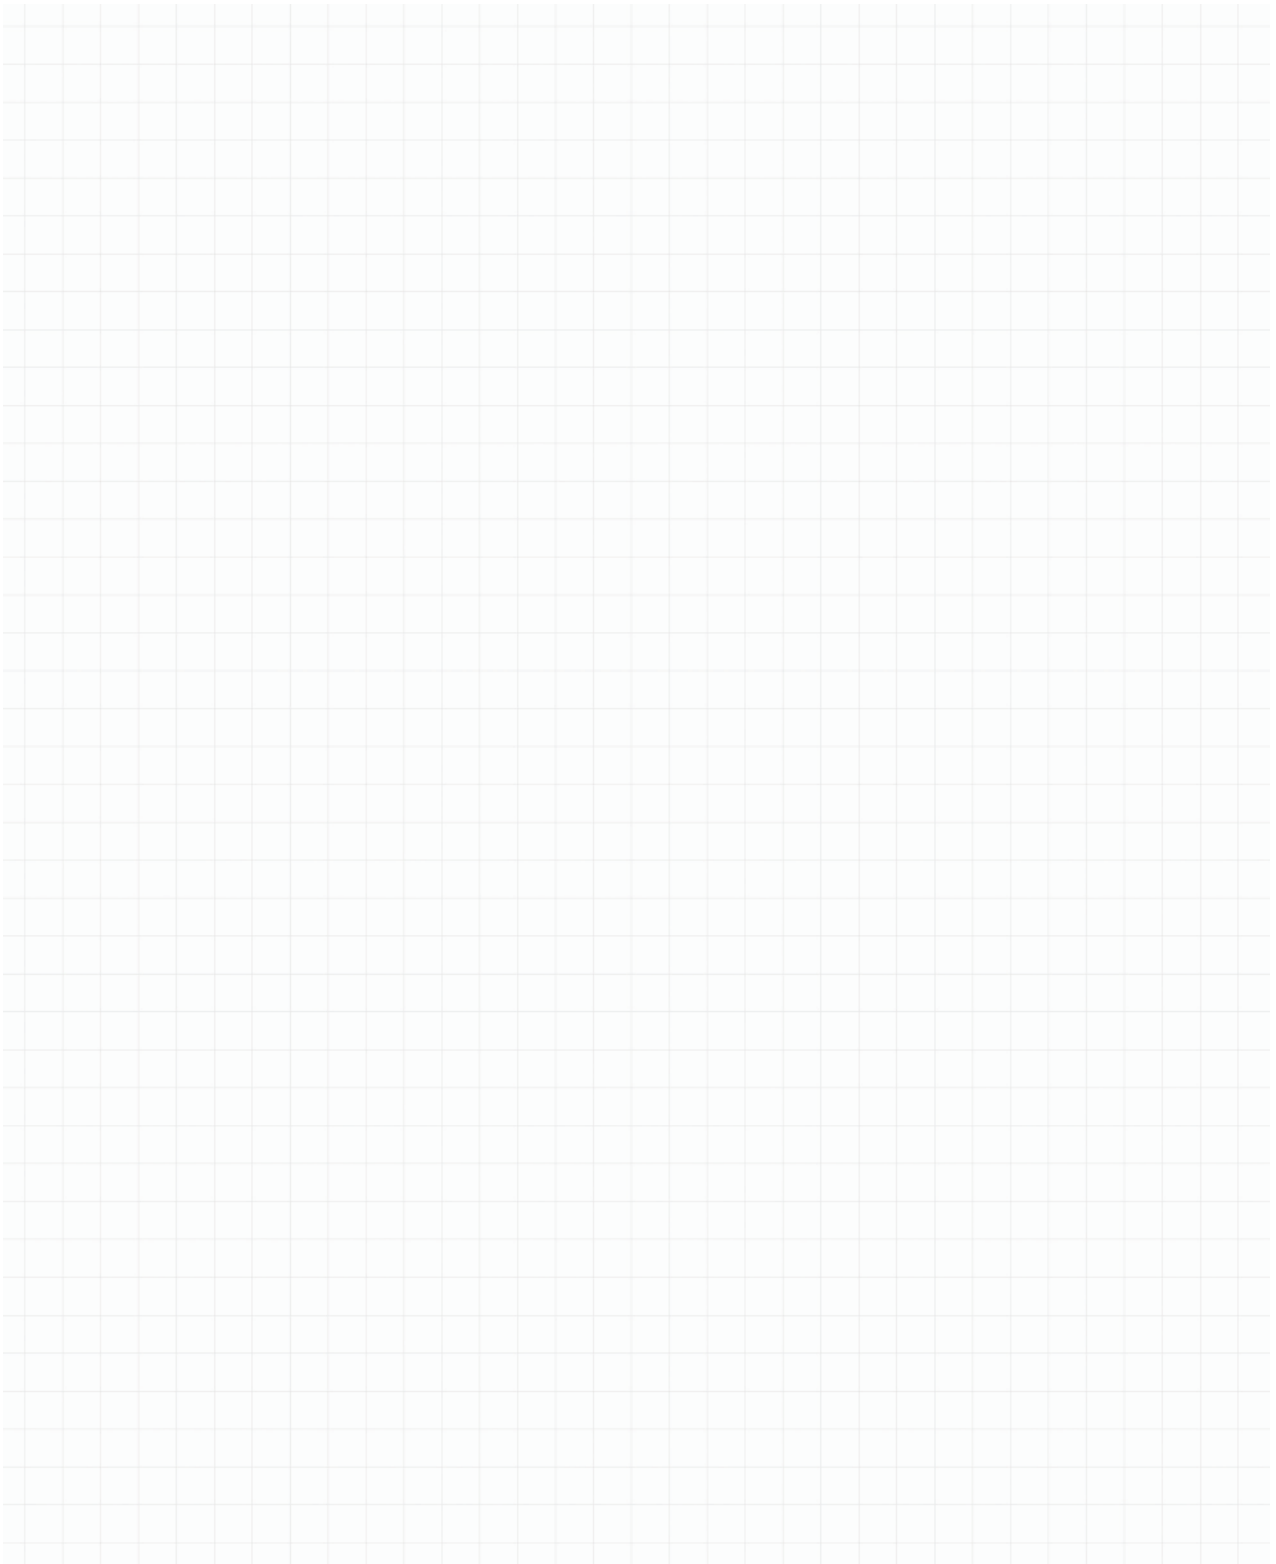

zflys welcomes the opportunity of supporting companies from all industries in Cyprus and Greece – from start-ups and SMEs to large corporations.

Whether it's a website, social media, pitch or resilience training: there is a suitable solution for every communication challenge. The result: communication that connects and does not irritate.
