

IOT SOLUTIONS WORLD CONGRESS

ADVANTAGE AUSTRIA Spain is pleased to present the Austrian companies exhibiting at the Austrian stand at the IOT Solutions World Congress (IOTSWC), which will be held from 10-12 May 2022 at the Fira Barcelona exhibition venue:

CO-EXHIBITING COMPANIES

AUSTRIAN BUSINESS AGENCY + VIENNA BUSINESS AGENCY -

<http://www.investinaustria.at> + <https://viennabusinessagency.at/>

ABA - Invest in Austria and Vienna Business Agency are two Austrian agencies for investment promotion in Austria and Vienna respectively and are the first contact for foreign companies wishing to set up their own business in Austria.

E + E ELEKTRONIK GES.M.B.H. - <http://www.epluse.com>

E+E Elektronik develops and manufactures sensors, transmitters, hand-helds and data loggers for relative humidity, moisture in oil, dew point, air velocity, flow, CO2, temperature and pressure.

FREEEWAY AG - <http://www.freeeway.com>

Freeeway provides IoT connectivity Everywhere for Everything and Everytime. Freeeway also offers an IoT White-Label solution to enable companies in all industries to get additional revenues from selling connectivity under their own brand.

HEAP ENGINEERING GMBH - <https://www.heap-engineering.at/>

Heap Engineering has been offering research and development services in the fields of automation technology, embedded systems, the Internet of Things and machine vision since 2018.

ONEKEY - <https://onekey.com>

ONEKEY is the leading European platform for automated security & compliance analysis for industrial (IIoT & ICS), manufacturing (OT) and Internet of Things (IoT) devices. ONEKEY autonomously analyzes firmware for critical security vulnerabilities and compliance violations, all without source code, device, or network access.

SECURIKETT ULRICH & HORN GMBH - <http://www.securikett.com>

Securikett® offers security consultation, product integrity and digitization, tailored design and improved customer communication. Tamper protection is a unique development of the company and meets the highest demands of its customers.

QITASC GMBH - <http://www.qitasc.at>

QiTASC's "key task" as a Quality Improving Tools and Services Company provides companies with the technology and know-how to quickly improve test coverage in their test projects and get their products to the market sooner.

VISITING COMPANIES

HAKOM TIME SERIES GMBH - <http://www.hakom.at>

HAKOM es líder tecnológico en la gestión de series temporales para la industria energética y proporciona Big Data Time Series, Soluciones, Asesoramiento y Soporte en torno a aplicaciones basadas en series temporales.

IOT SYSTEMS GMBH - <https://www.iot-systems.at>

IoT-Systems is specialised in the measurement of microclimates, such as temperature, humidity, and condensation, in the field of agriculture, especially in vineyards and fruit plantations.

KAPITEL D GMBH - <http://kapitel-d.com>

KAPITEL D supports companies on their path of digital transformation – by building and strengthening internal digital skills, by designing and implementing digital projects, by linking industrial processes, etc. In short, they shape the future.
