HALL 5A STAND 5A J377

ENTRANCE HALL 5

PREFACE

Dear defence and security expert, dear visitor,

Welcome to the Austrian pavilion at Eurosatory Paris 2022. It is my privilege and honour to invite you to browse the whole supply chain of the Austrian high-tech defence and security sector in hall 5A stand J 377.

The Austrian defence industry is a high-tech sector offering a wide variety in manufactured and engineered dual-use products in the heart of Europe. The Austrian security and defence industry generates a multibillion Euro income for global markets. Products from Austrian companies in the security sector are in use worldwide. Austrian companies feature enormous expertise in the area of IT security. Come and look for yourself.

This year ADVANTAGE AUSTRIA features 23 Austrian high-tech security and defence companies in Hall 5A. Get to know our expert companies in the following fields:

- special vehicle construction and components
- cranes and lifting frames
- motor development and powertrain electrification
- high pressure instrumentation
- ballistic helmets
- firearms and firearms equipment (pistols, rifles, grenade launcher, rifle scopes, thermal imaging devices and binoculars)
- mortar ammunitions, weapon systems, auxiliary field equipment

PREFACE

- ISR turnkey solutions and geo-data acquisition
- cable harness and connectors, transfer cases, electric and electronic parts for vehicles
- high-performance materials for aviation and aeronautics, alloys and composites
- mobile barriers
- snow and protection chains
- NBC protection clothes, extreme weather protective clothing, sleeping bags and alpine equipment
- medical and forensic equipment
- special transport solutions
- consulting

Surprisingly ingenious? Obviously not! Austria is high-tech purveyor to elite defence and security units providing top quality products and technical expertise, recognized internationally. It is a proven fact that the politically neutral Alpine Republic and its top-notch Austrian companies are highly reliable business partners to a multitude of military purchasing departments worldwide.

I invite you to browse through your personal copy of the Austrian exhibitors' catalogue, giving you an insight into Austria at Eurosatory Paris 2022. Visit us online at www.advantageaustria.org/fr, send us an e-mail to paris@advantageaustria.org and meet our security and defence experts at the ADVANTAGE AUSTRIA Info Point 5A J377 in hall 5a.

Wishing you a great Eurosatory 2022, turning contacts into contracts.

Yours sincerely,

Christian H. Schierer
The Austrian Trade Commissioner for France & Monaco
Director ADVANTAGE AUSTRIA France & Monaco

E office@airbornetechnologies.at
W www.airbornetechnologies.at

The Airborne Technologies team consists of experts from the fields of aviation and systems engineering, specialised in the integration of any airborne remote sensors in customer platforms (fixed-wing aircrafts, helicopters, and drones). Cross-industry know-how in avionics and systems engineering, as well as all relevant EASA certifications (design, production, and maintenance organisation) make the company a specialist for aerial surveillance solutions.

Developments such as the Airborne LINX mission system and the SCAR-Pod “plug and fly” solutions are examples of an optimal and customer-oriented combination of platform and mission systems. Airborne Technologies provides customised solutions – for governments, police, military, and many other industrial sectors.
