## PREFACE

Dear defence expert, dear visitor,

Welcome at the Austrian Pavilion at Milipol 2017.

This year the ADVANTAGE AUSTRIA pavilion in Hall 6 features 14 Austrian high-tech companies in the field of:

- cyber security & intelligent vision technologies,
- special security vehicles & gyrocopters,
- firearms & firearms protection,
- automatic speech research, police and military training equipment,
- drug test and forensic equipment and
- extreme weather protective clothing, sleeping bags and alpine equipment.

Austria is an esteemed purveyor to elite defence and security units providing high quality products and technical expertise. The politically neutral Alpine Republic and its top-notch Austrian companies are highly reliable business partners to police and military purchasing departments worldwide.

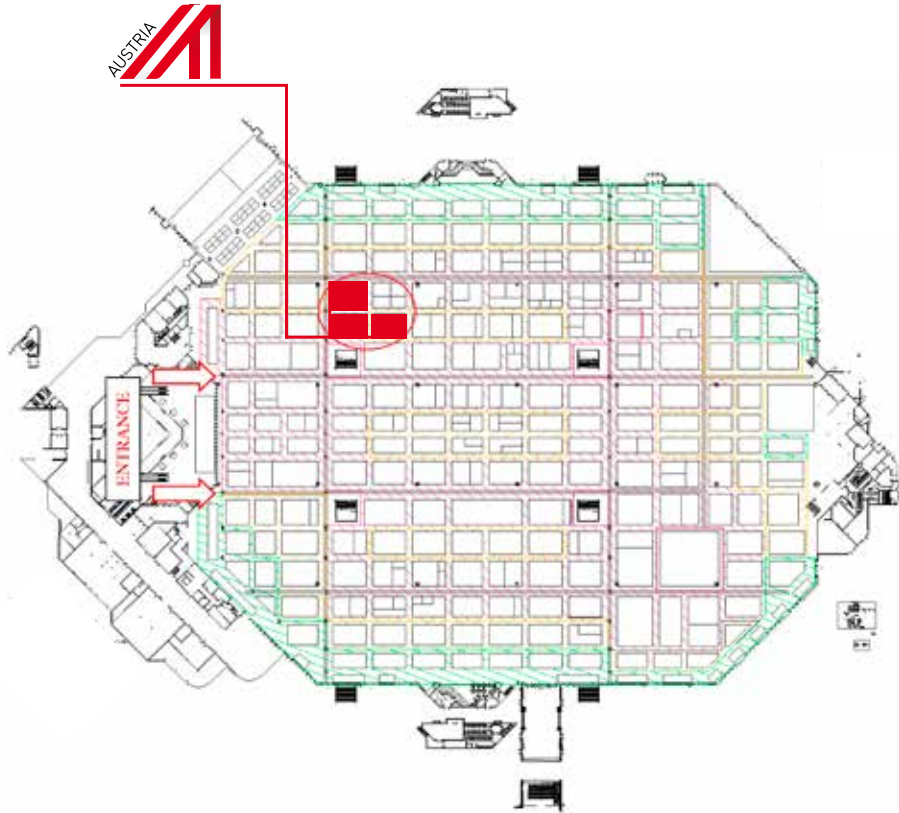

I invite you to browse through your personal copy of the Austrian exhibitors' catalogue. Visit us online at [www.advantageaustria.org/fr](http://www.advantageaustria.org/fr), send us an e-mail to [paris@advantageaustria.org](mailto:paris@advantageaustria.org) and meet our security and defence experts at the ADVANTAGE AUSTRIA Info Point 6E078 in Hall 6.

Wishing you a great Milipol 2017, turning contacts into contracts.

Yours sincerely,

Christian H. Schierer  
 The Austrian Trade Commissioner for France & Monaco  
 Director ADVANTAGE AUSTRIA France & Monaco

TITANIUM HELMETS FROM ULBRICHTS PROTECTION  
STAND 6D062

Ulbrichts Witwe GmbH  
Kaufing 34, 4690 Schwanenstadt, Austria  
T +43 7673 27 81-0  
F +43 7673 27 81-50  
E [protection@ulbrichts.com](mailto:protection@ulbrichts.com)  
W [www.ulbrichts.com](http://www.ulbrichts.com)

ULBRICHTS develops and produces at its headquarters in Schwanenstadt (Austria). The company's decades of experience and concrete police deployment demands have contributed to the development of the titanium helmets. All helmets by ULBRICHTS are fully certified in accordance with the Technical Guideline (TR) "Complete Ballistic Helmet System" ("Gesamtsystem Ballistischer Schutzhelm", 05/2010), which is recognised throughout Europe. The certification not only takes the helmets' stopping power into account, but also the dangerous "trauma effect" in accordance with VPAM HVN 2009, which can occur when a projectile impacts and transfers residual energy.
