WELCOME TO THE AUSTRIAN PAVILION AT FUTUREBUILD 2020

Climate change has become the defining topic of our time. Yet the UK still faces huge challenges to meet the need for new affordable housing and infrastructure. Only by embracing innovation and collaborating on the search for new solutions can we meet these challenges in a sustainable way.

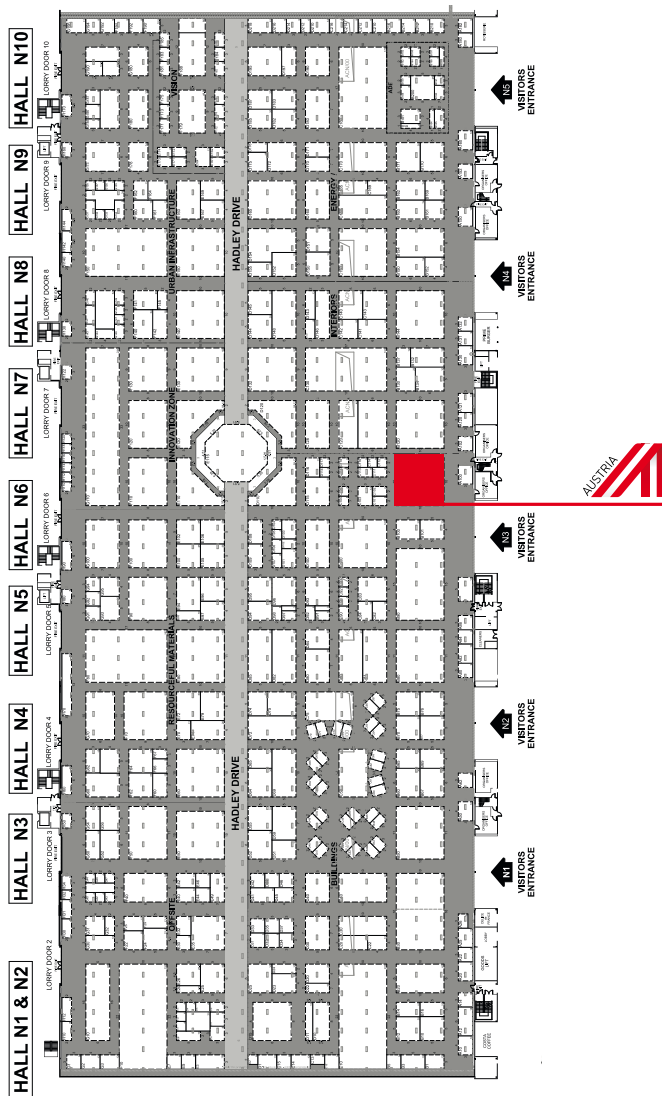

We are delighted that the Austrian Pavilion at Futurebuild will this year feature exciting new innovators from the Austrian building and technology sectors as well as established leaders in sustainable building.

We warmly invite you to explore critical issues with sustainability experts and meet new business partners on the Austrian Pavilion. Find out about the latest innovations from Austria for energy and resource efficiency, modular construction techniques, digitalisation and smart technology. Join us on Wednesday 4th March at 4:30pm for our Austria Umtrunk (drinks reception) on stand B110.

We look forward to meeting you!

Christian Kesberg
Trade Commissioner in London

E contact@livablecities.io
W www.greenpass.io

GREENPASS GmbH is a Viennese startup that has developed the GREENPASS, a world-wide unique “Software as a Service” solution for planning climate-resilient cities.

The GREENPASS enables cities, developers, planners and architects to simulate, evaluate, optimize and certify the climate resilience and thermal comfort capacity of buildings, materials and plants at the project site. GREENPASS provides a time- and cost-effective (master) planning tool to optimally adapt construction projects to the effects of climate change (heat, wind, rain, etc.) and to ensure long-term quality of life.

SE1 2NL London, UK
T +44 20 3031 8070
E office@klhuk.com
W www.klhuk.com

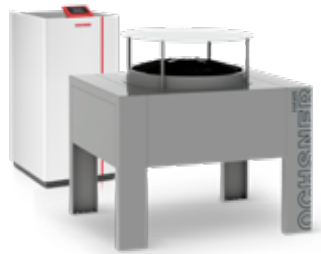

KLH Massivholz GmbH is the pioneer in the industrial manufacture and supply of cross-laminated timber (CLT). With more than 20 years of experience and as one of the market leading manufacturers we offer a wide range of products and project related services, in addition to the CLT supply.

We see ourselves as project partners for architects, planners, construction companies, but also as a partner for private and public investors. From a technical point of view, we follow a solution-oriented approach with our teams able to work across departments and countries.

KLH® solid wood panels have been used as wall, floor or roof elements in more than 30,000 reference projects worldwide. With each cubic meter of cross laminated timber we make a significant contribution to reducing the carbon footprint of the construction process.

OCHSNER
WÄRMEPUMPEN

Ochsner-Strasse 1, 3350 Haag, Austria
T +43 5042458
F +43 5042458 8175
E kontakt@ochsner.com
W www.ochsner.com

OCHSNER Wärmepumpen GmbH was founded in 1978 and the company has become synonymous with energy awareness, a pioneering spirit and a flair for innovation. OCHSNER was one of the first European manufacturers to produce heat pumps on an industrial scale. Today, the company is recognised as one of the sector's international technology leaders.

OCHSNER provides a complete range of heat pumps for every source of heat (water, ground, air) and all performance classes - from domestic housing up to large buildings.

oead

OeAD-Wohnraumverwaltungs GmbH /OeAD student housing
Ebendorferstrasse 7, 1010 Vienna, Austria
T +43 1 534 08 800
F +43 1 534 08 899
E housing@oead.at
W www.housing.oead.at

OeAD student housing is service-oriented undertaking which arranges energy-efficient and sustainable accommodation in Austria University cities for 12,000 OeAD scholarship holders, guest professors, students and researchers from all over the world.

As a pioneer in the passive house movement, the OeAD student housing is keen to pass on its expertise through two 'summer universities'. The "Green Building Solutions" & the "Alternative Economic and Monetary Systems" summer schools are devoted to the subjects of ecological building and planning and of Passive House technology. They also deal with solutions to current economic problems and social welfare.

PlanRadar GmbH
Seilerstaette 22/3, 1010 Vienna, Austria
T +43 720 517 135
E info@planradar.com
W www.planradar.com

PlanRadar is a platform-and device-independent web-based SaaS (Software as a Service) solution covering construction documentation, defect and task management for construction and property projects.

A web application (for all browsers) and apps for all smartphones and tablets (iOS, Android, Windows) undertake the detection, documentation, communication and tracking of defects and tasks on the basis of a digital floor plan or architect's plan.

By digitizing the workflow, PlanRadar reduces the frequency of errors, saves time for all parties involved and achieves enormous efficiency gains.
