

APC
NATURAL FEED
ADDITIVES

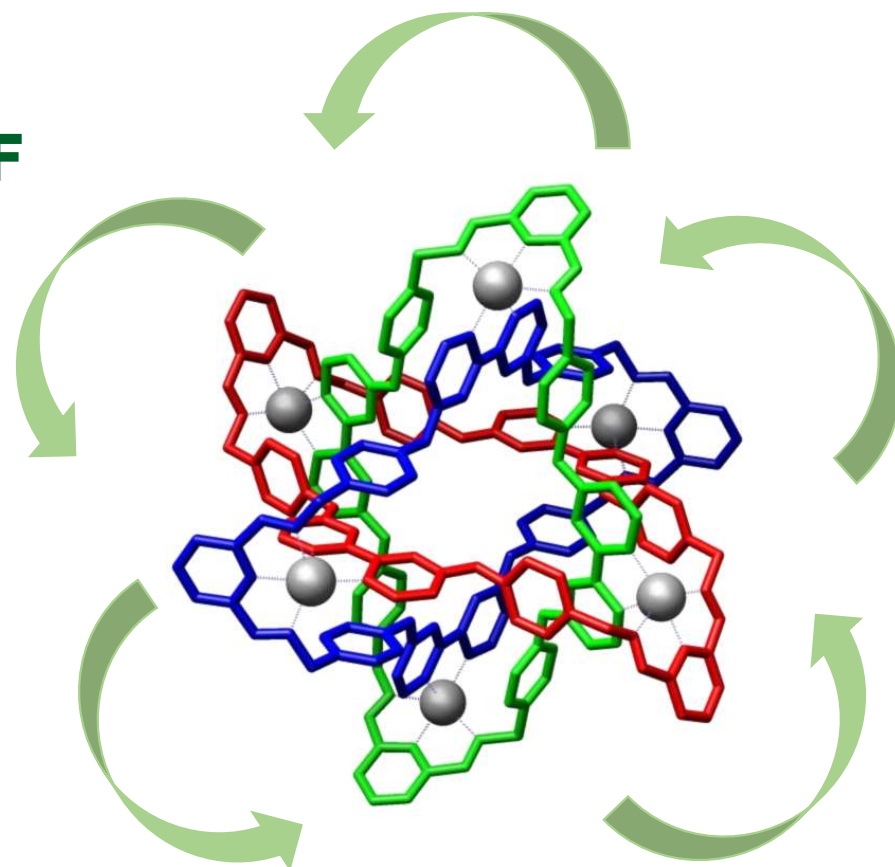

NECESSARY ADDITIVES FOR PRODUCTIVE FEEDING

APC FEED ADDITIVES COMBINES THE FUNCTIONS OF ALL FIVE ADDITIVES IN ONE PRODUCT!

! All our results are proven by university trials as well as farm trials and successful work with long-term customers for many years in EU, Dubai, Iran, Tunisia, Belarus and many other countries.

ECONOMIC VALUE PROFIT

APC feed additives provide the possibilities:

- to lower the amount of protein in the feed up to 20%
- to lower the amount of calcium and phosphorus in the feed up to 10% - 40 %
- to reduce on veterinary services
- to lower ammonia emissions up to 50%
- to optimize the cost of feed and achieving higher ADG and FCR

SIGNIFICANT Increased economical advantages

*Reduction of ammonia
emissions up to 50% -
healthier animals - less
respiratory diseases, more
sustainability!*

UNIQUE FEED ADDITIVES BY APC THE POWER OF SCIENCE

- ✓ APC natural feed additives consist of a specific mixture of clay minerals with synergistic effects, herbs, essential oils and some trace elements
- ✓ Due to special physical processing all the synergistic effects are increased strongly. By that very high effects are achieved with a small inclusion rate.
- ✓ The inclusion rate is as small as 0,2 % of ready feed

«35 years of scientific research led to success »

APC founder,
Werner Speer

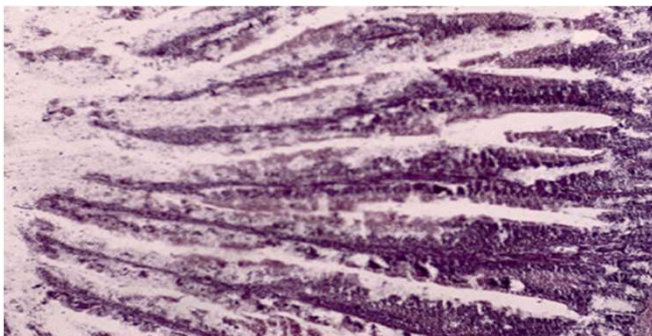

HEALTH OF ANIMALS IS THE PRIORITY

APC feed additives result in:

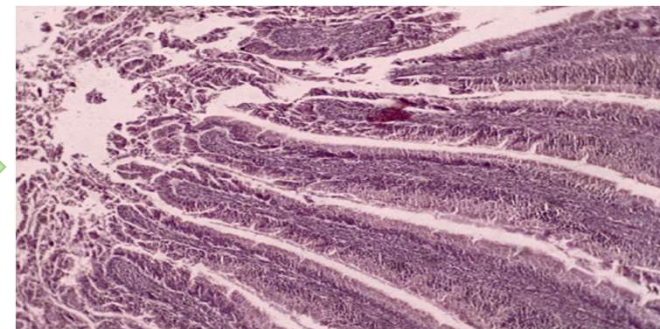

- ✓ Better and healthier intestinal mucosa and microflora
- ✓ Lower pH value in the intestine **by that, better environment for lacto bacteria**
- ✓ Significantly increased number of lactobacteria in the intestine **means lower amount of pathogene bacteria.**
- ✓ Better metabolism and liver protection and strongly improved immunity

Conventional feed

Mucosa
of intestine

APC feed

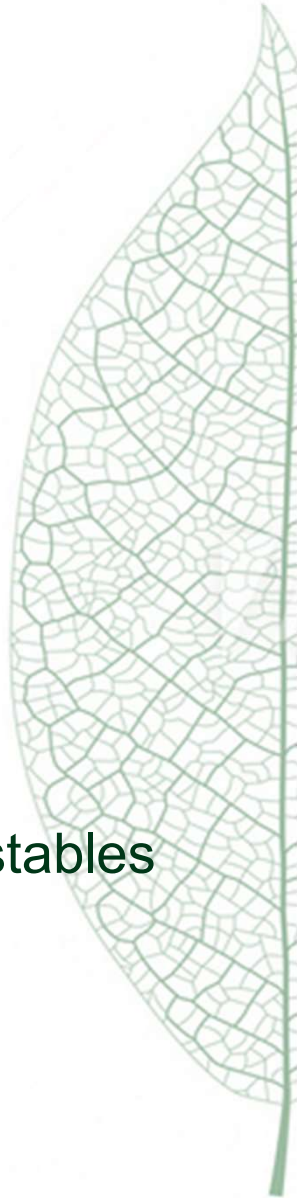

APC EFFICIENCY

- ✓ Better health and immunity of the animals
- ✓ Pigs - Less MMA disposition and better immunity, better FCR and ADG
- ✓ Poultry - Better hatchability, less prenatal mortality, more vital one day chicks, better egg shells
- ✓ Cows – More lactations, higher milk yield, better ADG and health.
- ✓ Less mortality in general

Environmental protection

- Strong reduction of bad gases and ammonia up to 30% - 50% in the stables and into the environment
- Higher content of dry matter in the excrements **through lower water consumption.**
- More sustainability through less N, and P in the manure

PROSPEROUS BUSINESS WITH APC

**HIGHER
QUALITY OF
A FINAL
PRODUCT**

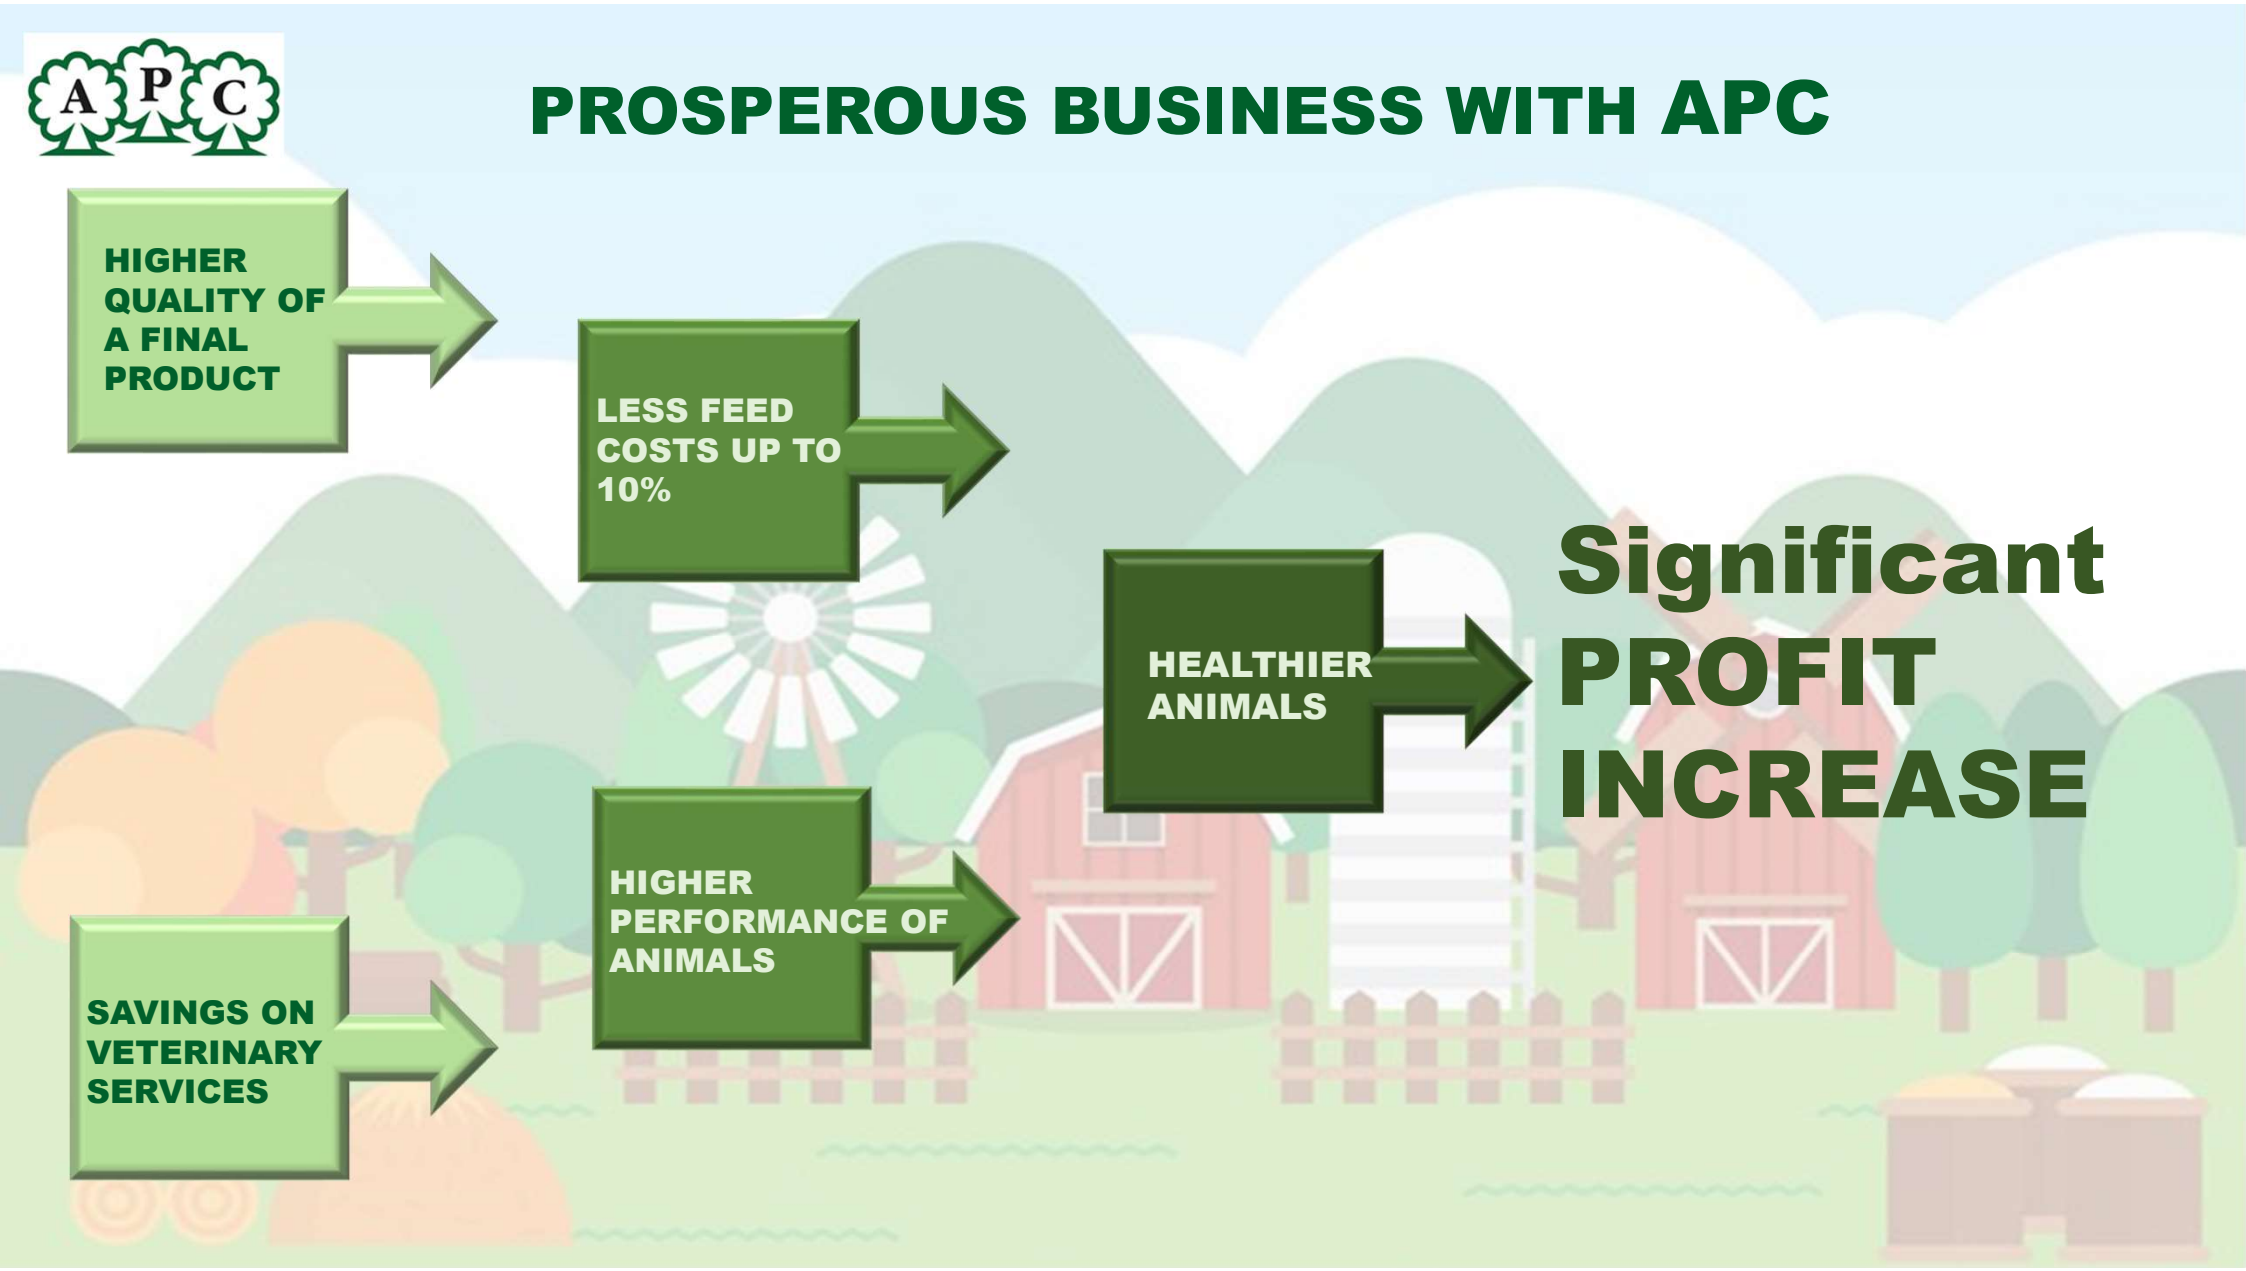

**LESS FEED
COSTS UP TO
10%**

**SAVINGS ON
VETERINARY
SERVICES**

**HIGHER
PERFORMANCE OF
ANIMALS**

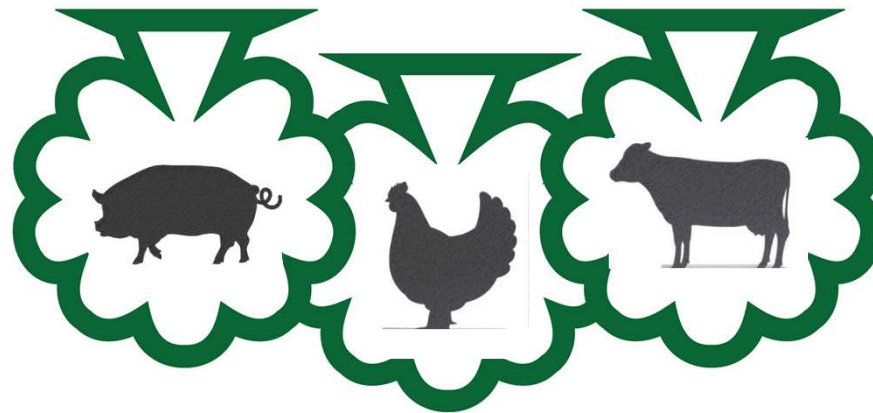

**HEALTHIER
ANIMALS**

**Significant
PROFIT
INCREASE**
