PREFACE

Michael Spalek

Austrian Commercial Counsellor
for Belgium, the Netherlands &
Luxembourg

ADVANTAGE AUSTRIA participates in the international security fair NEDS 2022 with a stand where you will find a wide range of technologies in the field of security and defence.

Austria's companies in the security and defence sector have been marketing a wide range of products, services, technology and expertise, including vehicles and equipment, weapons, munitions and personal defence kits, not to mention information, communication and cyber technology. Austrian companies enjoy an international reputation for their expertise in all these fields.

With their ability to create innovative, bespoke solutions, the Austrian companies in the sector base their global competitive edge on taking the technological lead, paying attention to customers' needs and ensuring the highest quality.

In this brochure, you can find the company profiles and contact details of the Austrian companies that participate at NEDS 2022.

Visit us at our stand and learn first-hand about the Austrian offer in the security sector as well as about business opportunities with our participating companies.

We hope that this will be the start of many fruitful cooperations.

Mr Mohammed Azarkani
E M.Azarkani@commend.nl

From its founding in 1971, Commend grew from a small family business into a large, globally recognised player providing Integrated Intercom Systems. Today, Commend is part of the TKH Group.

Their unique solutions are installed for the protection of people, buildings and assets throughout the world. Integration of Commend Intercom Solutions has been hugely successful in many industry sectors.

Intercom stations, modules and servers for integration of speech, image and data can be found in control rooms throughout the world for increased security. For example, help and emergency call points for transport solutions, controlling barriers in car parks and controlling elevators in buildings. Their solutions can also be found in universities and schools, in production facilities, refineries,

airports, hospitals, car parks, tunnels and many more.

All of these industry sectors require absolute dependability in a variety of situations. Exceptional quality, state of the art design, reliability, commitment to longevity and product development, ensure that a Commend Intercom solution is a lifetime investment in communication and thus Commend remains the preferred choice among customers. Their passion is your safety and security.

Commend products and solutions are long term investments since they can be expanded and upgraded.

CONTAINEX, part of the WALTER GROUP, is Europe's leading producer of container and modular space solutions. For more than 40 years, their cabins and containers have offered the perfect space solution in every sector: construction, industry, trade, commerce, in the municipal sector and at events or in emergency & disaster relief missions.

The product range comprises of:

- Portable cabins
- Sanitary cabins
- Storagecontainer
- Terrace module
- Office and WC boxes

Versatile in use and equipment

CONTAINEX space modules are available in different sizes and with various equipment options and can be used in many ways: as

office and sanitary facilities on construction sites, in factories and at events, as residential modules, additional classrooms, club premises or temporary back-up offices during renovations. The modules are also used as sales areas or storage rooms in a variety of industries.

Standard meets flexibility

Customer and service orientation are the focus of the Austrian family company CONTAINEX. That is why interested parties are advised in their native language - and also face-to-face on site. Their own logistics department and more than 250 depots throughout Europe ensure short delivery times and prompt delivery to site.

PEWAG AUSTRIA GmbH

Gaslaternenweg 4
