W <http://www.advantageaustria.org/sa>

Our office in Riyadh is part of a network of more than 110 offices in over 70 countries that provide a broad range of intelligence and business development services for both Austrian companies and their international business partners.

Our team of experts can assist Saudi companies in locating Austrian suppliers and business partners. We organize numerous events every year to bring business contacts together. Other services provided by our office range from introductions to Austrian companies looking for importers, distributors, or agents to providing in-depth information on Austria as a business location and assistance in entering the Austrian market.

## PREFACE

On behalf of Advantage Austria, it is my great pleasure to introduce to you four Austrian companies.

They are taking part in the Big 5 Saudi from February 18<sup>th</sup> to 21<sup>st</sup> 2023. This is one of the follow-up events of the Austrian trade mission to Riyadh and Dammam in March 2022 and comes ahead of this years' trade mission to Riyadh on 15. and 16. of March 2023.

At the Austrian pavilion we are proud to present you a range of Austrian technologies described in more detail on the following pages. The participating Austrian companies are what we call “hidden champions” each pertaining to their special niche.

I trust this event will find your interest. Wishing you interesting and fruitful talks with the representatives of our Austrian companies.

Christoph Pfeifer

Commercial Counsellor at the Austrian Embassy  
Head of Advantage Austria in Saudi Arabia

18-21 FEBRUARY 2023  
RFECC- RIYADH FRONT EXHIBITION & CONFERENCE CENTER

## COMPANIES

### **BIG 5 SAUDI - FEBRUARY 2023**

---

EVG, a leading global manufacturer, has been developing and manufacturing production equipment and machinery for the production of welded wire mesh and for processing concrete reinforcing bars since 1949.

EVG plants are usually tailored to meet customer-specific requirements. The company thus has numerous technical solutions for the different requirements that arise in connection with welded mesh production and concrete reinforcing bar processing.

**We are looking for**

Complete lines for welding wire mesh in wire sizes from 0.5 to 25 mm

- Truss girder welders
- Welders for industrial gratings
- New Home building technology with 3-dimensional insulated welded wire space frames
- Automatic straightening, cutting, and bending machinery for reinforcing steel
- Cold rolling lines

We are specialized in new and used machines and equipment for infrastructure and civil engineering projects and have customers in more than 50 countries around the world.

Our main product line covers:

Shoring: trench boxes, slide rail elements, sheet piles, waler beams, struts, tie rods

Piling: hydraulic vibrators, air, diesel, and hydraulic impact hammers, piling rigs, leaders

Drilling: drills for anchors, micro-piles, and soil investigation, grouting and jet-grouting equipment.

### **We are looking for**

Specialized infrastructure and civil engineering contractors and consultants who are interested in our machines and equipment but also in our engineering services for challenging projects.

## OMP Trade GmbH

### FLEDBAG© – Big Bag Dispenser – Quality from Austria

With the innovative FLEDBAG©, you can empty the contents of big bags (FIBC) easily, quickly and precisely. Any residual amounts can therefore remain in the big bag and be emptied later.

With the FLEDBAG© Original for disposable big bags and the FLEDBAG-Easy© for reusable big bags, OMP Trade GmbH offers the right dispenser for every type of big bag.

### We are looking for

Sales partners for our FLEDBAG© products, especially for the FLEDBAG© Big Bag Dispenser. This partner can also take over the countries surrounding Saudi Arabia for distribution. We currently have no other partner in the Arabic region, so the potential new sales partner would be the first on this market.

**PlanRadar GmbH**

---

PlanRadar is a digital platform for task management, communication and reporting in construction and real estate projects. The platform enables teams to improve the quality of their work, cut costs and complete projects more quickly.

Through improved collaboration and access to real-time data, combined with flexible solutions for businesses and processes of all sizes, PlanRadar's easy-to-use platform generates added value for all stakeholders over every phase of a building's lifecycle.

More than 120,000 users in over 65 countries worldwide already utilise PlanRadar.

## **We are looking for**

potential customers and business partners in the construction and real estate industries.

The platform connects all project stakeholders and provides real-time access to valuable project data, enabling teams to increase the quality of their work, cut costs and implement projects more quickly.
