Our office in Riyadh is part of a network of more than 110 offices in over 70 countries that provide a broad range of intelligence and business development services for both Austrian companies and their international business partners.

Our team of experts can assist Saudi companies in locating Austrian suppliers and business partners. We organize numerous events every year to bring business contacts together. Other services provided by our office range from introductions to Austrian companies looking for importers, distributors, or agents to providing in-depth information on Austria as a business location and assistance in entering the Austrian market.

PREFACE

On behalf of Advantage Austria, it is my great pleasure to introduce to you four Austrian companies from the cybersecurity space.

They are taking part in the Austria Showcase “Cybersecurity, Critical Infrastructure and AI” in Saudi-Arabia from January 30th to February 1st 2023. This is one of the follow-up events of the Trade Mission alongside the visit of the former Austrian Minister for Digital & Economic Affairs, Dr. Margarete Schramböck, and the 8th meeting of the Austrian Saudi-Arabian Joint Commission on Economy, Trade, Industry and Technology in Riyadh in March 2022.

The trade delegation in March was headed by Dr. Richard Schenz, former Vice-President of the Austrian Federal Economic Chamber. Aside from official visits a Business & Investment Forum took place in Riyadh and a Business Forum Eastern Province in Dammam.

This year we are proud to present you four top Austrian companies in the field of cybersecurity. The details of their technologies are described in more detail on the following pages. The participating Austrian companies are what we call “hidden champions” each pertaining to their special niche.

I trust this event will find your interest. Wishing you interesting and fruitful talks with the representatives of our Austrian companies.

Christoph Pfeifer

Commercial Counsellor at the Austrian Embassy
Head of Advantage Austria in Saudi Arabia
