

UNIHA Wasser Technologie GmbH is a striving, very agile company in the field of **environmental technology** and almost 100% active in exports. Our customers are mostly industrial companies or municipalities in different worldwide regions and markets. The cooperation in the company works in a short, direct way without exaggerated hierarchies and rigid positions. For our team, we are looking for an ambitious talent to join our team as

Site/Project Engineer (m/f/x) Environmental Technology

Your future tasks:

- Process design of water treatment processes: flow diagrams, PID, bill of quantities, layout, philosophy of control, equipment specifications, commissioning/operation/maintenance manuals, etc.
- Site Management and project engineering, management of subcontractors and Client's engineer
- Installation Supervision of Subcontractors
- Plant commissioning supervision and supervision of subcontractors
- Potential taking over of Project Manager position for turnkey contracts
- Help to preserve the world's scarcest resource

Your convincing profile:

- Preferably experienced and/or young professionals with a BSc/MSc in process/chemical/electrical/mechanical/water engineering or comparable qualification
- Good knowledge about process design, plant engineering and water chemistry
- Advanced IT skills (MS Office, 2D/3D CAD/CAPE tools, etc.)
- Team player with ability of sovereign and independent work style
- Willingness to travel internationally and relocation during execution phase of projects
- Good communication and problem-solving skills
- English required, other language skills advantageous (German, French, Portuguese, Balkan area)

We offer:

- Meaningful international work in the environmental sector
- Attractive remuneration package including possibility for permanent relocation to Austria
- Options for further education programs and development plans within the company
- Motivating working atmosphere in a dynamic team comprised of young professionals and experienced mentors

If you are interested to join our international team of experts, please send your applications including CV and motivation letter to UNIHA's Commercial Director Peter Latzelsperger (latzelsperger@uniha.at).
