

Express

The DIY version: cost-efficient, easy & fast

Just get started

Our “Express” voucher system is the perfect starter package for direct voucher sales. The uniform system version including the mobile-first surface offers a “stand-alone” shop with pre-installed voucher templates, fonts, payment and distribution methods.

Your advantages

- Automatic handling of voucher creation incl. online payments (online transfers and credit card payments)
- Pre-installed voucher templates incl. real-time preview with individual text and a personal picture of the buyer
- Optimised mobile-first surface for tablets and smartphones

Adapted to your company

Adapt the design of your “Express” voucher shop, by uploading your own logo and pictures as well as choosing the colours according to your corporate design. Up to ten voucher templates are provided and also come with your logo, images and colours. The “stand-alone” shop guarantees, detached from your website, an ideal presentation of your voucher offers, also on mobile devices such as smartphones and tablets.

Personalisation

With a personal greeting and picture uploaded directly from the smartphone gallery, the buyer can customize the voucher individually.

Marketing features

The news-slider and features such as special offers and discount codes, which are also available in combination with limitation or time adjustment of the contract settings, supports your voucher marketing.
