

Our services & expertise

PwC Slovenia
Autumn 2022

“

When you get right down to it, success is all about value and trust.

Value is a product of trust. The trust your clients have in you. The trust you have in your people, strategies and systems. And the trust you have in your partners and business advisors.

As the world's leading professional services firm, we know that value and trust are also the ingredients of a quality relationship — and that they are earned over more than a single engagement.

No matter how big you are, public or private, and in what industries or sectors you do business, we can help you work smarter and reach your goals. Have a look at the services we offer. And let's talk.

Integrated teams that work well together

PwC in Slovenia is part of PwC SEE/CEE

- Our offices around SEE comprise the largest audit and advisory firm in the region operated as one partnership.
- Throughout the region, all offices of PwC work at unified level: as a cluster across borders. Thus, PwC SEE is able to immediately pull expertise and resources from a significant pool of more than 950 highly experienced professionals and benefits from an unparalleled combination of local knowledge and world-standard audit, advisory and consulting skills. Our practice offers:
 - Highly experienced senior management team having renowned international name and reputation,
 - Industry and product specialists broadly grouped on a regional, not country-by-country, basis; into financial services, consumer/industrial products and service companies, energy and mining, metals and constructions, telecoms and media, public sector,
 - Properly balanced team of expatriates and nationals to ensure suitable knowledge, experience and value for money,
 - Strong connections with the PwC network of offices in the region, country and the global network of professional advisors.

PwC in Slovenia

- The company has been operating in Slovenia since 1993.
- In our office in Ljubljana we employ more than 110 professionals who provide assurance, advisory and tax & legal consulting services to our clients.
- Our combination of local experience and a "one-firm" culture enables us to provide quality advice responsive to local conditions and requirements and to a wide range of clients, including local state owned and private enterprises, central government bodies, and leading international corporations.
- Our integrated teams work well together and provide full support to our clients wherever they may be located.

We are a community of solvers combining human ingenuity, experience and technology innovation to deliver sustained outcomes and build trust.

It all adds up to our new strategy, The New Equation.

Standards of
Auditing, and align
with new standards
as necessary.

Audit & Assurance

While many of the rules of business have changed, the fundamentals haven't. Meeting investor expectations begins with the completeness, accuracy and fair presentation of information in your financial statements and disclosures. Our commitment to delivering high-quality assurance services is at the heart of what we do. We provide comprehensive audit and assurance services designed to deliver real value and underpin investor confidence.

We invite you to explore the many ways PwC's professionals can help you:

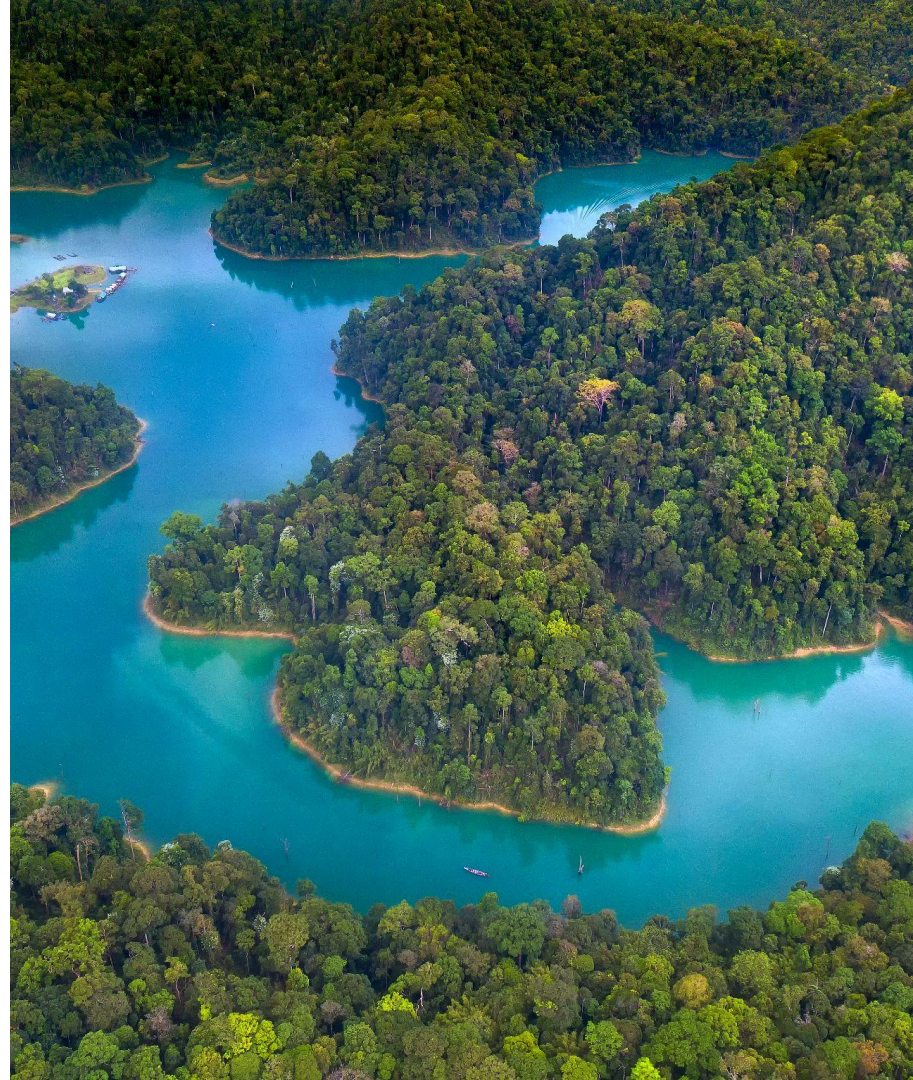

PwC's Sustainability practice helps organisations plan, source, deliver, finance and measure the wider impact of products and services. We're helping to future-proof businesses by making them more resilient, agile and sustainable. We provide guidance on a wide variety of issues, working with clients from the corporate, private equity and public sector. We're specialists in how organisations can spot the risks and harness the opportunities.

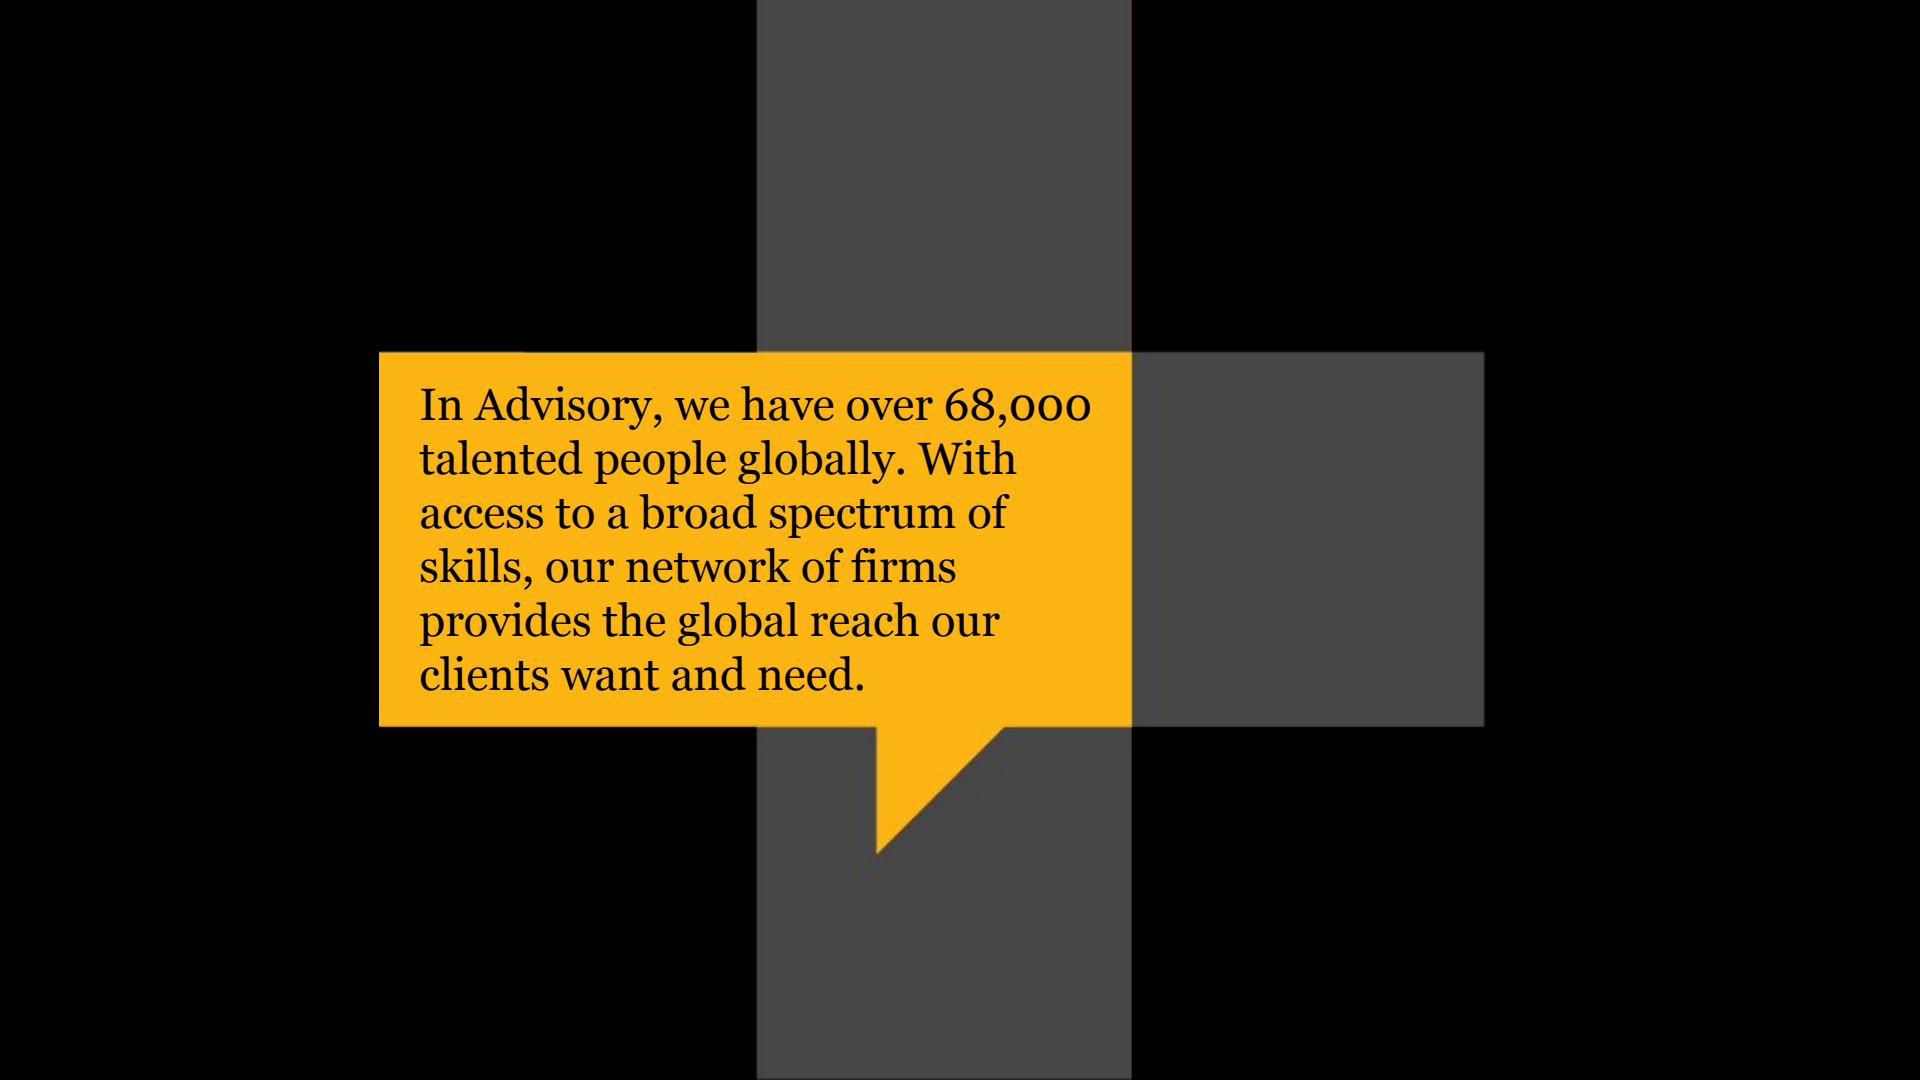

Climate Change and Sustainability Services - ESG

Non-financial reporting and assurance

Investors, regulators and more broadly, society, are increasingly demanding greater transparency around the non-financial performance of organizations to assess their true long-term value. In response, businesses must broaden the scope of their reporting and seek new ways of communicating non-financial performance. Our services include:

- Assurance of sustainability or corporate responsibility reports, including performance disclosures, data, targets and KPIs relating to environmental, social, economic and governance topics
- Assurance of integrated reports, including ESG disclosures
- Assurance of specific indicators and statements
- Report our observations obtained during the assurance process and areas for improvement to management
- We can carry out a thorough review of the concept, content and structure of the reports to increase stakeholder value and satisfy their needs. This will help communicate your non-financial credentials and develop corporate, non-financial and integrated reporting frameworks.
- Sustainability reporting can help your organization to measure, evaluate and communicate major economic, environmental and social impacts, set goals and manage your business more effectively.

In Advisory, we have over 68,000 talented people globally. With access to a broad spectrum of skills, our network of firms provides the global reach our clients want and need.

Advisory services

Growth and change are two realities that no business can afford to ignore. Sustainable strategies that help your business innovate and grow while reducing costs and leveraging talent are just as essential as having the agility and creativity to respond to rapidly changing environments.

By taking time to understand your business and the issues and challenges you are facing, our Advisory teams use local and global knowledge to help you challenge conventions and introduce and deliver strategies that work specifically for you.

At PwC, we combine expertise and industry insights to address client issues:
