Arosa Lenzerheide (hikemap, CH)

Gudauri (Georgia)

Ishiuchi (JP)

SKIMAPS SINCE 1997.
OVER 250 SKIMAPS IN 15 COUNTRIES.

Low Maintenance

- real-time data delivered from the primary data source
- In addition maintainable via skimapCMS

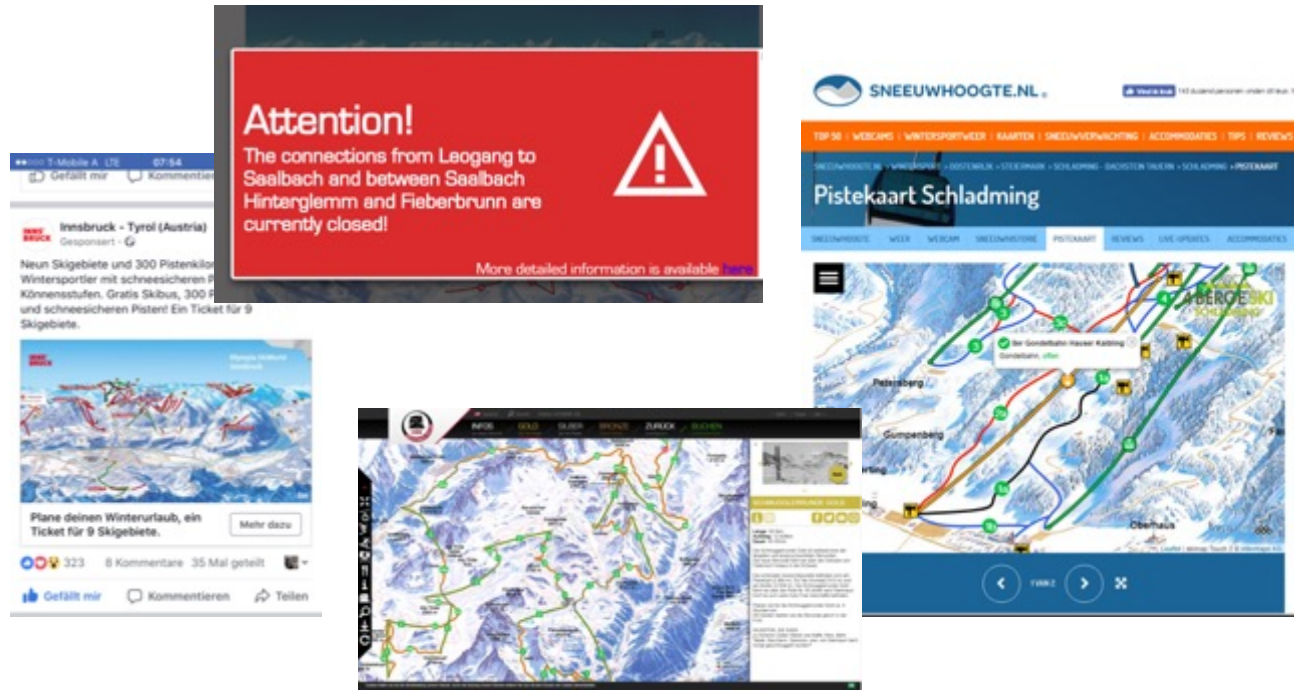

Front-Ends

- Desktop (PC/Mac/LINUX)
- Tablets & Smartphones
- Digital Signage

Professional Presentation

- responsive design
- Grid technology
- Zoom feature with greater depth of detail
- Fullscreen function
- Search function
- and many more

Communication Usage

- status of the lifts, trails...
- warning messages
- real-time information

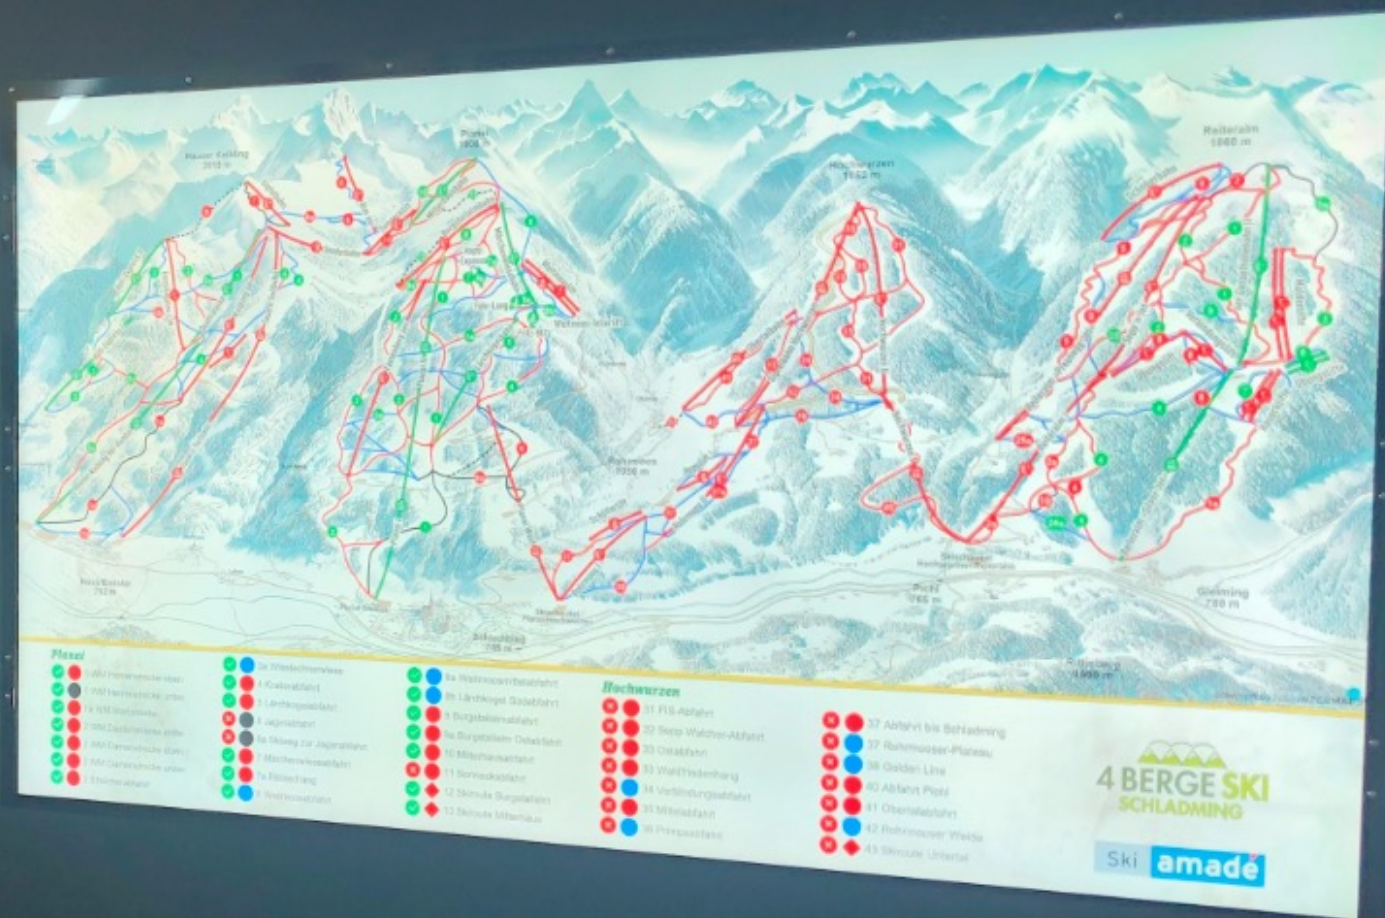

Marketing Tool = digital Business card

- presentation of the activities
- info about the trails
- visualization of the ski circuits

Distribution

- iSKI Apps
- partner platforms
- social media

skimaps PRIME BENEFITS

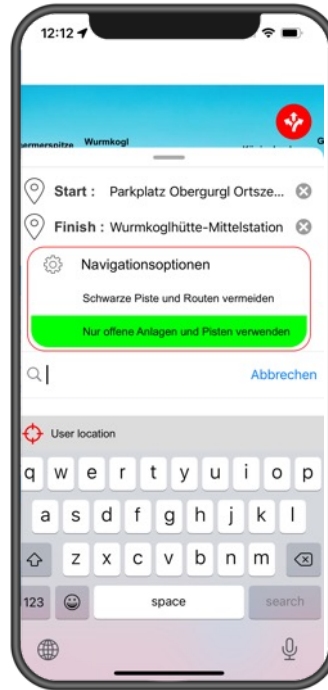

SKI!TV ON SITE INFORMATION. UP-TO-DATE. AND RELIABLE

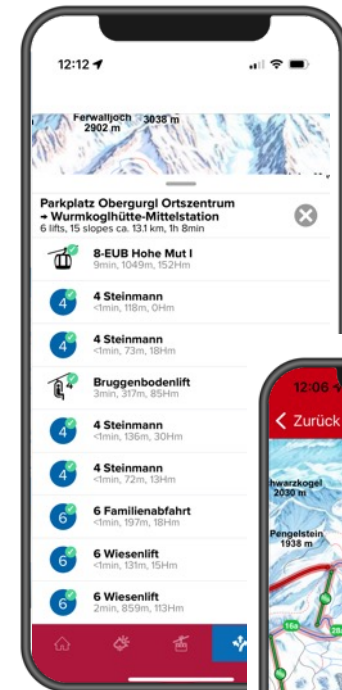

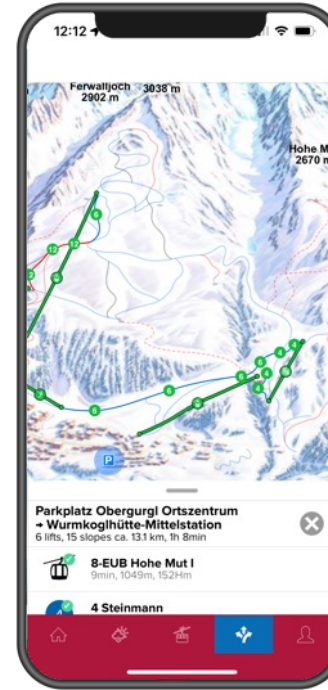

skimapGPS

- Integration of user location display on the painted map based on the user's GPS location and the skiresort geodata of lifts/slopes

Point2Point navigation

- The user gets routing information through the skiresort.
- The user can define a start (e.g. his GPS location), choose a destination (e.g. a restaurant or valley station of a lift.) and define further options (e.g. no black slopes or skiroutes).
