

## **STATEC BINDER GmbH**

STATEC BINDER continuously manages to successfully apply its expertise as a bagging and palletizing specialist of bulk materials on a global scale. With its flexible and customer-oriented packaging technology, the Austrian company is represented on the international market, placing itself among the leading suppliers of high-performance open mouth bagging machines. The wide-ranging product portfolio offers customized solutions of the highest quality for products used in a variety of industries.

### **High-performance products for customers with high standards**

The PRINCIPAC, CERTOPAC, ACROPAC and CIRCUPAC open-mouth bagging systems are designed for polyethylene (PE), woven polypropylene (PP) and paper bags with a filling weight of 5 kg to 50 kg. The high-performance segment is complemented by the SYSTEM-T FFS (Form-Fill-Seal) machine for bag processing from tubular film and the SYSTEM-F vertical FFS machine for bag processing from flat film.

The broad product range of STATEC BINDER is rounded off by robotic, high-level and portal palletizing systems. The PRINCIPAL-H, PRINCIPAL-R and PRINCIPAL-P palletizers are characterized by their high efficiency and adaptability. High-performance net weighers and bag closing systems ensure precise weighing and dosing, as well as a secure closure of bags.

### **Meeting customer needs globally**

Starting at the food sector to the petrochemical industry – with over 1,400 machines installed worldwide, STATEC BINDER looks back on numerous positive references. The company counts small firms as well as large corporations, represented on all five continents, among its existing customer base.

Thanks to proven technology as well as continuous developments and optimizations, STATEC BINDER serves as an internationally recognized partner to many. After 40 years of experience, the company stands for absolute reliability, characterized by precision and constant innovation.

### **Customer service as a success factor**

Customers all over the world put their trust in STATEC BINDER every day. Expert consulting services, a high level of service competence and support for any concern provide reasons for this. Customer service is characterized by highly trained employees and online service with real-time support. The fullest satisfaction of the customers has the highest priority.
