WINE GROWING REGIONS IN AUSTRIA

AUSTRIAN WINE REFRESHINGLY NATURAL

Dr. Georg WeingartnerAustrian Commercial Counsellor

Small is heautiful - that is what hest describes Austrian wine, when put into international perspective. Wines from Austria are now highly appreciated both by wine experts and wine lovers all around the world and can be found on almost every refined wine list. As artisanal products crafted by winemakers with a special link to their land, they consistently demonstrate their potential at international blind tastings. Austrian wine goes very well with (spicy) Thai cuisine, as well as with Asian food in general. It is thus not surprising that the number of local distributors of Austrian wine in Thailand is increasing, so that these days you will find it in many upper-class hotels and restaurants. Most of the distributors are also supplying directly to private wine connoisseurs.

We are proud to host the 3rd **Austrian Wine Tasting**, this year offering the unique tastes of Austria's liquid gold from 57 leading Austrian wine producers from all wine regions in Austria!

Special words of thanks go to the **Austrian Wine**Marketing Board for assisting us to prepare
this wonderful event and to the freight
forwarding company **DHL**, for shipping most of
the wines from Austria to Thailand!

Inspired by the the desire for high quality, we have developed the Alpine sparkling wines. A gentle dealcoholization process through vacuum distillation removes the alcohol from the wine, so that the fine aromas, unique flavor and all the beneficial active ingredients are preserved.

The Alpen Rosé is a finely sparkling Rosé and convinces with its exotic spicy fruit and aromas of apricot, nutmeg and ripe grapes. Made from Austrian Welschriesling and Dornfeld grapes.

The Alpen Blanc is made from Austrian Welschriesling. It scores with its aromas of ripe apples and pears and is exotic and animating on the finish.

The Alpen Rosé and Alpen Blanc perfectly unfold its elegance in a champagne glass.

Am Eichenwald 3 | A-2424 Zurndorf T +43 2173 20899 E sekt@a-nobis.at W www.a-nobis.at

The A-Nobis sparkling winery was founded in 2018 by the experienced sparkling wine producer Norbert Szigeti together with his wife Birgit. His decades of professional experience since 1991 are the solid foundation for this. The Latin "A-Nobis" brings it to the point: it means "from us". This highlights the most important point: great sparkling wines are only possible if everyone is behind them: from the harvesters to the owners. The A also stands for Austria. Nobis symbolizes the two founders of the sparkling wine cellar: NO-Norbert, BI-Birgit and S-Sparkling wine/Szigeti. The A-Nobis sparkling wines are offered exclusively to private customers, wine shops and restaurants. The farm is certified organic and uses only regional raw materials.

We are now in the third generation with our vegan organic family winery. Our organic farm in Dürnleis, in the east of Austria in the beautiful Weinviertel. As an organic winery, we vinify our organic grapes into aromatic fruity white wines and full-bodied velvety red wines. In addition to wines, you will also find frizzante, juices and brandies, but also wines made from fungus-resistant grapes. Our passion and conviction is to vinify unmistakable wines with a strong character, in a vegan organic way, in harmony with nature. For us, organic is logical!

Domaines Kilger is a winery, which produces austrian wines from three different regions. In weststyria we produce the variety Blauer Wildbacher für very characteris sparkling Rosé and Rosé wine. In southstyria both single vineyards named "Ries Sonneck" and "Ried Kranachberg" represent very elegant and fascinating sauvignon blancs. In Eisenberg – south Burgenland wines of blaufränkisch and merlot are growing and result in top red wines.

The winemaker Walter Polz is responsiblen for the southstyrian wines. We work consequently in relation with the nature to garantue traditon and biodiversity.

Domäne Wachau, led by Roman Horvath MW and Heinz Frischengruber, has developed into one of the top wineries in Austria, with an excellent range of Wachau wines that beautifully reflect origin. The small vineyard plots in the steep terraces along the Danube River are cultivated by vintner families - the true heroes of the winery - through their intensive manual work. Craftsmanship, sustainability, and the unique biodiversity are the pillars of the vineyards that Domäne Wachau manages. Many of these vineyards are world-famous, including Achleiten, Kellerberg and Singerriedel. The winery is also known for its extensive wine tourism offerings.

We are a boutique winery in the Austrian Weinviertel. Since founded in 2013 we are focused on accomponying our wines in the best possible way for them to express their potential. The year's cycle, the unique and amazing soil of our vineyards and nature's will are our guidelines to allow our wines to breathe. Obviously being nutty as a fruitcake we started full of emotions which still are there and deepened, but these emotions also altered to devotion towards the process of originating the wine. We respect traditions, but we are not forced to obey them blindly and we like to experiment just to see what more there is in the aromapot and what we can do better to nurture our wines. So we work with heart and soul and our wines they do the rock'n'roll.

SZIGETI - BEST SPARKLING WINE FROM AUSTRIA

More than 30 years ago, Peter Szigeti recreated sparkling wine from scratch. He pioneered Austria's first sparkling wine production, focusing on single grape varieties and employing the Méthode Traditionnelle. Genuine passion and more than three decades of know-how and high-tech skills are what SZIGETI sparkling wines are made of. The experienced cellar master only uses selected sun-ripened grapes from the region surrounding Lake Neusiedl, transforms them into wine and allows them to unfold their unique varietal character and unmistakable taste. Refining the perfect sparkling wine takes months. The SZIGETI brand is considered Austria's very best premium sparkling wine. Every product line promises sparkling wine connoisseurs around the world an experience of pure indulgence. Numerous international awards and recognitions are living proof.

WABI SABI WINE

Donauuferstrasse | A-3506 Hollenburg E toaworks@outlook.com W www.wabisabiwine.com

The concept of Wabi-Sabi originates from the Japanese Zen and describes a world where beauty is defined by imperfection. This is the basis and idea to produce true low-intervention wines which do not follow traditions and particular style. We aim for living wines with all its peculiarities and imperfections. Autochthonous grapes from the famous Wachau and surrounding regions near the Danube river are used. Only mature grapes are hand-picked at an early stage to ensure fresh acidity and are vinified without unnecessary manipulations. Bottling is unfined, unfiltered and with low levels of SO2 levels.

We are a small-structured family-run vinery in Bisamberg, a small town in Lower Austria at the southern end of the Weinviertel. Right outside the gates of Vienna, our family is cultivating around 3.5 hectares wine since the middle of the 17th century and primarily produces high quality wines that are typical for the region. Our focus is on the sorts Grüner Veltliner, Rheinriesling and Zweigelt and we produce these primarily for our own wine tavern, but recently also for an increasingly amount of high rated restaurants in the vicinity of Vienna. High quality, innovative production methods and a consciousness of tradition are our guiding principles that you can taste in every glass of wine.

Since some time, we want to place our wines also on the international market, above the Austrian borders. So we are looking for potential partners in export areas that are interested in Austrian wine and maybe also in our products. You are a wine dealer, a sommelier in a restaurant or in the specialized wine press? We would be glad to introduce our products to you, in order to establish a successful business relationship for both sides.

Allram has been one of the leading wineries of the Kamptal for decades, with holdings of Riesling and Grüner Veltliner in the famous vineyards of Heiligenstein, Gaisberg and Renner. This position has been strengthened further by receiving national and international awards. For the family, the main factor of producing exceptional wines is to be found already in the vineyards. Many individual and strong characters define the wines of the Allram family. A product of experience and skill. The attention to detail and quality was passed on to every generation. Today, Lorenz and his sister Magdalena Haas-Allram are pursuing it.

Living soils and biodiversity form the foundation for our wines. This, in synthesis with organic cultivation in our vineyards, makes it possible to grow grapes with character and finesse. Built on the experience of generations, we are a family business and we supplement this tradition with the most modern insights of natural science. At the same time, our mission is to learn to understand and work with nature. This enables us to produce individual and multi-facetted wines close to Retz, the city of wine, in Lower Austria at the Moravian Czech border.

THE PHILOSOPHIE. Respect for nature is a characteristic witnessed in the style of all the CHRIST wines – pure in the sense of authenticity. To gives the wines the taste of geology and origin is one of the greatest challenges. Handling the grapes with a gentle touch is evident. Hand-picked grapes and diligent selection, with minimal intervention in the wine cellar with no fining, corrections, or sterile filtration, result in wines full of natural character and vitality. RAINER CHRIST´S philosophy is furthermore a challange to the winery design; in the cellar, gravity is key. A CHRIST does not pump wine. Grapes and must are transported through the aid of gravity, and nothing else. Five climate zones ensure optimal ripeness.

THE WINE ESTATE. The three pillars of how winemaking is done at Weingut CHRIST, include its 400-year family tradition, its philosophy of living in touch with nature in the vineyards, as well as the innovative esprit. The carefully chosen vineyards on the sought-after Bisamberg site in Vienna are nurtured with both passion and dedication; this fusion of tradition meeting the modern reflects one of the goals set by ambitious estate.

The Elfenhof vineyards are located in the free city of Rust, directly on Lake Neusiedl, one of the best wine-growing areas in the world.

At the Elfenhof winery, not only wine is produced, no, here viticulture is pursued with a lot of knowledge, skill and love. Real joy of experimentation and the desire to try things out. In addition, the freedom to take what is best - that is viticulture in perfection and wine enjoyment in perfection.

The Elfenhof winery has been in the family since 1642. Our family tradition is sacred to us, because here, for twelve generations now, the accumulated knowledge and the many little secrets are passed on to our children. Rust is a paradise for viticulture: the location, the soils, the climate. This gives us the possibility to grow almost every grape variety, therefore we can offer you a particularly large number of wines.

Weingut Fred Loimer is a biodynamically managed winery in Langenlois. Our vineyards in the Kamptal and in the thermal region of Gumpoldskirchen allow us to offer a wide range of wines due to the different soil conditions. From Grüner Veltliner and Riesling to Pinot Noir and sparkling wine, the winery manages to convince in various price categories. Fred Loimer, himself an unconditional idealist, has fully committed his actions to biodynamic viticulture. Based on this conviction, he was instrumental in founding the "respekt-biodyn" association in 2007 - an association of vintners who share an ideal that goes further. In other words: the very highest quality, not only from the wine itself. We work in partnership, sustainably and respectfully with people, vines and nature. Our wines can be described as typical of their origin, independent, sustainable and unmistakable. Drinking pleasure and unique taste are at the top of the list of requirements. "The wine must taste good," says Fred Loimer. And not just at the first sip, but throughout the whole bottle!"

The wines of Hannes Sabathi consistently demonstrate clarity and depth, along with a precise characterisation of the soil and the individuality of the vintage. Sabathi allows his wines to evolve with a great deal of intuition for the interplay between soil, grape variety and weather that is different every year: 'I do not see myself as a "winemaker", because I do not "make" any wine. The soil and the vintage make the wine', is how Hannes explains his approach as a grower. The Sabathi estate is located on the Kranachberg in the Südsteiermark, near Gamlitz, and has been in possession of the family since 1860. In 2005, at the age of twenty-five, Hannes took over full responsibility for the business, closed the book on mixed farming and set out in search of the vinously remarkable – this remains his goal today still.

The Weingut HANS-IGLER is an Austrian family business since more than 50 years. The quality begins in the vineyards and they act accordingly. Their close-to-nature approach to viticulture (green fertilization, mechanical tillage, etc.), low yields of grapes per hectare (by breaking off the shoots and thinning out the grapes, etc.), a late and gentle harvest as well as the careful processing represent the basis of the quality wines typical of the region.

Naturally, the know-how contributes to the success but also the meticulous handling of the product in the cellar in order to develop the quality in the best way possible, makes its contribution. In the future, Clemens Reisner, son of the family, who has been responsible for the cellar since 2010, is planning to focus even more on the indigenous red wines from the Blaufränkischland, with their individual characteristics, and promote their deserved place on the international basis.

Attentive observation of nature, biodynamic cultivation, unbridled biodiversity above and below the earth's surface: Gernot and Heike Heinrich's idea of terroir wines is based on a deep understanding of the diverse living environments within their vineyards. The aim is to create a natural balance in which vines, people, plants and animals act in symbiosis and form the decisive elements of a whole. The natural prerequisites are cool steep limestone slopes on the Leithaberg, a modulated topography with a warmer climate near the winery in Gols, and a handful of autochthonous grape varieties led by Blaufränkisch. Undogmatic, handcrafted vinification gives the wines the freedom to speak of their origins in an unadulterated and clear voice. They lay the foundation for continuous evolution. Exchange with friends in the Pannobile, Demeter and Respekt associations opens additional perspectives. The results are vibrant and vital wines that are puristic and strong in character as they reveal the essence of their specific places of origin.

At the foot of the Gaisberg mountain in the southern Kamptal, lies the picturesque village of Straß im Straßertale, home to the Topf family's traditional winery.

Here, where knowledge and passion have been passed down consistently over five generations since 1885, wines with a unique signature are created. Preserving tradition, passing on the skilled craft, and taking great care in the vineyards are part of the daily routine. Together with here sons, Hans Topf vinifies single-vineyard and sparkling wines and brings them to marked with optimum maturity. The brothers Hans-Peter & Maximilian work in harmony with nature and complement their father's portfolio with their own single-vineyard wines, which additionally bear their initials "HP" and "M" respectively. The great potential and pride of the winegrowing family is based on the Erste Lage single vineyard sites, Offenberg, Gaisberg, Wechselberg, Spiegel and Heiligenstein. Conglomerates of mica schist, paragneiss and arkroses as well as the influence of different microclimates are responsible for the uniqueness and distinctiveness of these sites. As a member of the Traditionsweingüter Österreich (Association of Austrian Traditional Wine Estates), the Topf family focuses on the experience of the single vineyard site wines under the motto "Herkunft im Glas kostbar machen" - loosely translatet as "treasure provenance within the glass".

The tradition:

The Autrieth family has been making wine in Hadres in the western Weinviertel since 1725. Vines have been cultivated and wine made and drunk here for hundreds of years. This tradition is now in the safe hands of Johannes Autrieth who is carrying it forward with the help of the latest technology. 20 hectares of vineyards are cultivated today, with much of the work still being carried out manually. Tradition, experience, good-quality land and last but not least state-of-the-art cellar technology allow Johannes Autrieth to produce complex organic wines brimming with local character.

Johannes Trapl is a biodynamic working purist seeking to express the authentic character of the wines of his home region Carnuntum, about 40 km east of Vienna. Most of his vines were planted by his grandfather and are deeply rooted in the limestone, loess, gravel and clay soils. The small Spitzerberg sub-region with its limestone-dominated soil offers the possibility to produce Blaufränkisch with unique character and finesse. Johannes' credo is: "I want to feel the variety, finesse and power inherent in our vineyards – and bring as much of them as possible into the wine, with a good degree of lightness and maximum drinkability!"

We are winegrowers with heart and soul in Neckenmarkt. 30 years ago, our family decided to bid farewell to the stables and fields, the cattle and grain and to focus entirely on viticulture, which, up to that moment, had only played a minor role. Our unique, multi-layered soils and the mild climate provided us with the ideal preconditions for growing high-quality red wine varieties, in particular the Blaufränkisch

Georg presses his wines with great enthusiasm and passion. His philosophy: "I don't want to create wines but would like to sensitively follow and accompany the maturation of the wine in the cellar. In doing so, each of our wines may develop its individual character and taste "

The Stiegelmar family has been growing high quality wines in Gols in Burgenland for many generations. Today, the JURIS winery is best known for its outstandingly diverse wines.

The top red wines, the St. Georg, Ina´mera and Tricata cuvées, convince wine lovers – these are complex wines of character that thrive wonderfully in the warm, Pannonian climate

When it comes to white wines, the well-structured Chardonnay Altenberg, the fragrant Sauvignon Blanc and the aromatic Muskat-Ottonel are also to be found at the top of the popularity scale. The straw wine is typical for Burgenland: its seductive residual sweetness is wonderfully complemented by the fruitiness of the Merlot grape.

K+K Kirnbauer – A kingdom for a grape! The K+K Kirnbauer estate beguiles with rich, fruity premium wines featuring expressive characters. The absolute highlight is their famous red wine 'Das Phantom', which kick-started Austria's successful cuvee wine culture in 1987. The love for wine-making has been passed down from generation to generation in the Kirnbauer family. The unique microclimate, the heavy soils and 300 days of sunshine every year, create the perfect environment for viticulture in the Burgenland. In order to keep it that way, the concept of vintner Markus Kirnbauer goes far beyond just 'organic' – he also ensures the winery's CO2 emission is as low as possible and in addition the estate generates its own electricity. Although the most commonly produced wine of the Burgenland region is the Blaufränkisch, at K+K Kirnbauer everything revolves around the blends. Above all stands their prestigious flagship red wine 'Das Phantom', one of Austria's most famous reds. It is a full-bodied, deep garnet red marriage of Lemberger, Merlot, Cabernet Sauvignon and Shiraz.

On a unique limestone conglomerate soil characterful, unmistakable wines with a clear style and terroir-emphasizing minerality are produced in the Traisental's leading company. The most important vineyards are called Alte Setzen, Zwirch, Rothenbart and Berg, all of which are classified "Erste Lagen" 1 ÖTW of the Austrian traditional wineries. The main grape variety is the Grüner Veltliner, which accounts for more than two thirds of the entire production. The second most important variety is the Riesling. Our top priority is achieving the highest quality by making no compromises in our work in the vineyards and the cellar. The vineyards are cultivated according to organic guidelines, the entire winery is certified organic and according to the regulations of Sustainable Austria. In addition to numerous national and international awards. Markus Huber was awarded the "Falstaff Winegrower of the Year", the Oscar of the Austrian wine industry, at a young age. Markus Huber's wines can be found in more than 35 nations worldwide, making the winery one of the most successful exporters of Austrian wines in the premium segment.

BURGUNDY RELOADED AND NEIGHBOUR NITSCH

Already my great-grandfather planted Pinot Blanc. Unfortunately, his efforts showed only little success – and so his attempts were stopped. We bring the Burgundy wine quickly back into the play! Austrian Burgundy! Cause we strongly believe in it's qualities. The more so as we are a bit stubborn. Meanwhile, we cultivate 16 ha in the best areas of St. Ulrich – called Hausberg, Sonnberg and Galgenberg; and what's more is the vineyard of Hermann Nitsch, our neighbour. Not to forget to mention that this famous painting artist is also rather a typical Weinviertler, who feels extremely comfortable here

We are family! And we've been around a long time – for 7 generations we have been living, loving and labouring here in Deutsch-Schützen. One could say that we are a family wine estate – it suits us. The region extending before us from our veranda is Southern Burgenland, and the Eisenberg is our mountain. This is where we are from and this is where we belong; it represents our heritage, origins and home. The Eisenberg and its surrounds are home to our vineyards which, after receiving much love and care from us year after year, gift us grapes. The majority of these grapes are red, respond to the name Blaufränkisch and are causing much furore in Austria as well as in the big wide world. We must humbly admit that we are quite proud of that. "Hands-off" winemaking is our approach. Sounds a bit lazy, but actually only our wines are allowed to do nothing as we give them plenty of time to mature. We, on the other hand, work hard day and night – organically, true to our soils and down to earth in the most literal sense. That is our philosophy and the secret to our success, and by pouring yourself a glass of wine, you become part of it all.

For Hans and Uli SETZER making wine is a type of lifestyle – a passion and challenge at the same time.

Since 1705, the wine-estate is passed down generations of Setzers. The small town Hohenwarth am Manhartsberg is situated at the edge of the western Weinviertel, where Grüner Veltliner and Roter Veltliner are at home. Those two varieties are the centrepiece of the wine-estate, which are very suitable for easy-drinking and also full-bodied wines from single-vineyards. The most important wines are Weinviertel DAC Reserve "8000" Ried Laa and Roter Veltliner Ried Kreimelberg, both are very intense and long-living. The Setzer in Pink, a light and fruity rosé, is the Austrian answer to the Provence, but with less alcohol.

The sons Armin and Stefan represent the third generation of the winery. Both strive to continue their parents' work with the same quality awareness and sense for tradition. Together with father Manfred they produce origin accentuated and handcrafted wines gained by bio-dynamic vineyard management and low harvest yields. Their terroir wines show strong independence, reflect their region and soil and show great ageing potential. Elegant and balanced wines with puristic minerality.

At Zahel, winemaking is working closely with nature, using methods that leave our vineyards as untouched as possible. After a decades-long commitment to rejecting pesticides and embracing a natural approach, we received our organic certification in 2017 and since 2018, cultivate our vineyards biodynamically. We feel strongly that these practices not only produce better wine but will allow our vineyards to thrive for generations to come. The varied terroir of each region ranges from flysch sandstone to loess to Dolomite chalk and in concert with numerous micro-climates, provides a basis for world-class wines. In this unique sense, Vienna's diverse terrain reflects the multi-faceted nature of city itself. Alongside our nature-driven approach to cultivating our vineyards, we appreciate that good bottle results not only from top-quality grapes, but months of careful craftsmanship. Crushed where necessary, pressed, fermented and aged, we use a light but experienced hand, respect for tradition, and great passion to bring character and precision to each Zahel wine.

The vineyards of the Zöhrer family, some of which have been family-owned for over 450 years, are located around the wine town of Krems an der Donau on the left bank of the Danube in the Kremstal, 70km west of Vienna.

The wooded hills of the Waldviertel provide protection against icy northwesterly winds. During the day the sun warms the stony terraces and at night the fresh, aromatic forest air gently wafts through the Kremstal and on towards the Kremser Bucht.

The combination of hot days and cool nights, the proximity of the Danube river and the geological and climatic diversity of the vineyard locations characterise the internationally acclaimed wines.

Nature is the prime factor permitted to influence the character of the wines in Schrattenthal in the northern Weinviertel: fertile soils which the encourage preference for Grüner Veltliner, Riesling and Zweigelt as the ideal wine varieties. Hot summer days and cold nights during the maturation period give the grapes their unmistakable harmonious aromatic structure. And finally, the uncompromising handwork of the Zull family in the vineyard, unswerving commitment and loving care result in finesse-rich, open, generous wines that are easy to drink with predictable depth: authentic wines reflecting the region.

I, Thomas Stopfer, started the small family business in 2007 with 3 ha of vineyards. In the meantime, our vineyard has grown to 15 hectares and we buy grapes from our village. Our main focus is on Grüner Veltliner, from light to very mature reserves characterized by the loess soil. But also dense spicy red wines.

My philosophy is to make typical terroir wines with structure. With every sip, you can taste our region, the Wagram.

Our wines are divided into 3 lines.

- Classic line, the light, fruity wines with drinking pleasure
- Löss line, full of character, spicy, the taste of the loess soil
- Top line, our single vinyards and reserve wines.

Our family's wine-growing estate has a very long tradition going back to 1660 when it was first mentioned. By vinification we mean our destination to produce top quality vintage wines which are typical for the local climate and soil of the Kamptal area. Due to long hours of sunshine and cool nights our wines are fruity and of fairly high alcohol content. Moreover, a subtly diversified tartness, which is caused by different types of soil and forms of viniculture, characterizes our wines. In our vinyards you can even find gravel and preexisting rocks as well as loess, which is typical of this area.
