ENERGY GLOBE Award

the world award for sustainability

105 nations participating

The ENERGY GLOBE Award is today's most prominent environmental prize worldwide. It distinguishes projects regionally, nationally and globally that conserve resources such as energy and utilize renewable or emission-free sources. The ENERGY GLOBE Award is today's most prestigious environmental prize worldwide.

The goal of the ENERGY GLOBE Award is to create the necessary awareness concerning solutions to our environmental problems and to demonstrate that each of us can make a positive contribution. The winning ENERGY GLOBE projects serve as examples. These are presented in the ENERGY GLOBE project database as well as on the ENERGY GLOBE Portal. In addition, the ENERGY GLOBE Portal offers solutions for all of us.

At the ENERGY GLOBE Award Gala, the best solutions are placed in the spotlight of international television broadcasts: in 2007 and 2008 the venue of the awards ceremony for the (inter)national ENERGY GLOBE winners was the Plenary Hall of the European Parliament in Brussels with the support of prominent people from all over the world. During the Czech EU Presidency 2009 the ENERGY GLOBE gala was opening event of the informal meeting of the EU Environmental Ministers in Prague. The participation in the ENERGY GLOBE 2009 was overwhelming: 105 countries submitted more than 800 projects. Highlight 2010: the ENERGY GLOBE TV Gala opens UN World Environment Day on 3 June in Kigali/Rwanda.

Overview of the ENERGY GLOBE Award

- The environmental prize has been awarded annually since 2000.
- ENERGY GLOBE winners are distinguished in the realm of the international ENERGY GLOBE TV gala.
