Privatklinik Wien-Währing
Austria’s first address for Aesthetic Medicine

Within a few months after its opening, Privatklinik Wien-Währing has become well known as THE Austrian Center of Competence for all kinds of modern beauty applications. Due to the international background of many staff members patients from abroad benefit from multilingual service and sensitive treatment of their special requirements. The success of Privatklinik Wien-Währing is mainly based on the following three facts:

1. Top-safety in treatment: Due to high-tech hygienic systems like the Laminar-Airflow-System, Privatklinik Wien-Währing offers Austria’s most modern and sterile operating rooms and operating suites.

2. Variety in cosmetic applications: Austria’s top beauty-doctors are working here and offer an extensive spectrum of state-of-the-art treatments for facial rejuvenation, face and neck resurfacing, body shaping, breast augmentation and many more.

3. Stylish ambience: The center offers a bright atmosphere and an elegant ambience which meet highest international standards. Committed and team-oriented working with high degree communication skills is a matter of course for the motivated team of Privatklinik Wien-Währing.

Need-orientated care

Rudolfinerhaus

The Rudolfinerhaus in Vienna is one of Europe’s most modern private hospitals

With its total staff of 400 employees - 190 of which are nursing personnel and 500 are referring physicians - the Rudolfinerhaus covers all aspects of surgical and internal medical care and also specializes in gynaecology and obstetrics, urology, orthopaedics, trauma surgery, neurology, ENT and ophthalmology. The Rudolfinerhaus has its own departments of diagnostic imaging (the institute has its own CT and MR scanners), angiography and nuclear medicine, an in-house laboratory and provides out-patient services such as preventive medicine, diagnostic screening, physiotherapy, nutritional counselling and traditional Chinese medicine. It also maintains a sleep laboratory. Every year, we welcome 8,000 hospitalised patients and approx. 17,500 outpatients who come to us not only from all over Austria but from many other countries to receive the best and very latest treatments available in an ambiance of exclusive luxury. Our focus is always on ensuring the well-being of our patients and the provision of need-orientated care. The Rudolfinerhaus was originally founded in 1882 by Theodor Billroth. Due to the private in-patient treatment, patients may continue to receive treatment from their physician of choice while staying with us. We are fully ISO 9001 certified.

Landeskrankenhaus Feldbach
Where female patients are primarily treated by female doctors

112 doctors work at Landeskrankenhaus Feldbach and they are all specialists in their respective disciplines.

The hospital’s infrastructure includes all acute medical disciplines with a special focus on:
- Obstetrics, including all alternative birthing methods (e.g. water birth)
- Invasive pacemaker implantations
- Laparoscopic surgery
- Gastroenterology, cardiology
- Diabetes mellitus
- Breast cancer
- Hip and knee endoprosthetics

Female patients at Landeskrankenhaus Feldbach are primarily treated by female doctors. The provided single bedrooms are equipped with all the extras and the in-house kitchen offers individually prepared meals (e.g. vegetarian food).

Besides golf courses and the Bad Waltersdorf spa resort, where patients and their accompanying persons can conclude their stay and recovery in a relaxed atmosphere, the region also offers many touristic sights such as the historic castle Riegerburg (built in 1138).

Landeskrankenhaus Hartberg

This Styrian model hospital focuses on the treatment of women

At the gynaecology and obstetrics department at Landeskrankenhaus Hartberg, headed by chief physician Dr. Kurt Resetarits, an experienced team of doctors, qualified midwives and nursing personnel provides the best possible treatment for gynaecological diseases as well as all childbirth services and surgical interventions for local and international patients.

The clinic’s curetages, operative and diagnostic hysteroscopy, operative laparoscopy, tubal patency tests, laparotomy including uterus removals, vaginal hysterectomy or incontinence treatments and incontinence surgeries meet the highest medical and safety standards.

Expectant mothers can choose from a wide variety of individual birthing methods: besides caesarian section, reduced-pain birth with epidural anesthesia, water birth or birth wheel delivery, patients can also choose outpatient childbirth and leave the hospital only a few hours after giving birth. In these cases, the aftercare is handled by midwives and paediatricians of the Landeskrankenhaus Hartberg at the clinic’s regional partner hotels (e. g. Bad Waltersdorf).

Landeskrankenhaus Hartberg

يركز هذا المستشفى النموذجي بستريا على علاج النساء

يوفر قسم النساء والتوليد في مستشفى Harberg، الذي يرأسه الطبيب الدكتور كورت ريستارتيس، إلى جانب فريق مورع من الأطباء والممرضات والقابلات، يوفر أفضل أساليب الرعاية المكملة لآلام النساء إلى جانب جميع خدمات التوليد المتميزة، والتدخلات الجراحية.

تقوم المستشفى بإجراء عمليات الكشف، وعمليات تطوير الرحم التشخيصية والجراحية، ومنظار البطن الجراحي، واختبارات سلوكية الأديبي، ووفق البطن الذي يشمل إزالة الرحم، استئصال الرحم عبر المهبل أو الوسائل العلاجية والجراحات السلسة والتي تمت مع أعلى المعايير الطبية والامنة.

يمكن للنساء اللواتي على وشك الولادة الاختيار من مجموعة متنوعة من طرق الولادة: هذا إلى جانب قسم الولادة القيصرية، الولادة بأل، بالمختبر فوق الجافة، التوليد المائي، أو التوليد بجعة الميلاد، ويمكن أن يختار أيضًا أن يذهب ويتزوج المستشفى خلال بعض ساعات قليلة من الولادة. وفي هذه الحالة يتولى الإشراف على رعاية Landes - ما بعد الولادة القليلات وأطفال الأطفال لدى مستشفى Krankenhaus Hartberg ويتزوج ذلك في فندق المستشفى (Bad Waltersdorf).

Tagesklinik Vertebralia
Competence center for spinal column disorders with more than 20 years of experience

Our clinic provides integrated treatment for all kinds of spinal column disorders. Our state-of-the-art therapy tools are customized to the patients’ individual requirements and the patients are actively involved in the treatment processes. Due to our holistic concept we are a 'one-stop-shop' and provide the entire treatment range under one roof - from the initial pain therapy to rehabilitation.

Our clinic consists of three departments (pain therapy, physical therapy and rehabilitation) which work in close collaboration with each other and are supervised by a disease manager. The primary focus of our clinic is the interventional pain therapy which has been successfully applied by chief physician Dr. Kraft for more than 20 years. In many cases open surgery can be avoided with this therapy.

Quick freedom from pain for the restoration of optimal life quality is our primary objective.

With the introduction of the Vertebralia concept through the opening of a clinic in Warsaw, Vertebralia took its first successful step towards internationalization.
Wiener Privatklinik Recommended by leading doctors

The proximity to the University’s clinics and the intensive contact to their top management and treating specialists, guarantee the best treatment at the WPK. Perfect interaction of first-class medical supplies and state-of-the-art technology in diagnostics, therapy and surgery as well as competent care make the Wiener Privatklinik the first choice in all matters concerning health. The certification of the entire range of care according to the international standard ISO 9001:2008 guarantees the high quality of medical care.

The Wiener Privatklinik is particularly well-known for its successes in the area of internal medicine, sport traumatology, oncology, accident surgery, surgery, orthopedics and physical medicine.

The latest equipment is the first obligation toward our patients. The principal items of the hospital in the field of diagnostics are CT, MRT, the latest angiography for minimally-invasive diagnostic and therapeutic intervention of the heart and veins. Additionally we offer four top-equipped operating theaters including an ultra-modern recovery room.

Cancer rehabilitation
A new place for people during or after cancer treatment

Sonnberghof in Bad Sauerbrunn (Burgenland, Austria) is a special place of tranquility and safety for people with or after oncological diseases.

It is a house of attentiveness, giving its guest the time to find their peace, strength and zest for life in the here and now.

Its first-class therapeutic services improve the quality of life and provide activation as well as relaxation and therefore the best possible recreation.
Optimal treatment
Rehabilitation and treatment services for lung diseases

The Gesundheitsresort Raxblick hospital is specialized in the treatment and rehabilitation of patients with pneumological diseases. The determination of the pneumological status, strength and endurance training as well as counselling for smokers are the most important aspects for pneumological patients. They are based on pulmonary function testing such as spirometry, body plethysmography, blood gas analysis and many more. A multi-professional team helps you to achieve the highest possible level of self-sufficiency and reintegrate yourself into your familiar environment.

Stays at the health resort for patients with lung and respiratory tract diseases are available at the healing gallery Oberzeiring. The healing gallery's dust and allergy-free air with its solved minerals, air temperature at 8,5°C and 95-100% humidity ensure the desired therapeutic effect. The combination of the healing gallery with the physical and medicinal applications at the adjacent therapy centre will let you breathe deeply and comfortably and increase your quality of life.
Return to everyday life!
The patient as a guest: With humaneness and technology to the desired success

The return to everyday life after illnesses and surgeries is often hard and laborious. Therefore technology, a lot of attentiveness and empathy are just as important as therapeutic expertise.

As one of Austria’s most modern rehabilitation centres and specialized hospital for neurological and neuro-orthopaedic rehabilitation as well as children’s rehabilitation, the Judendorf-Straßengel clinic provides the best possible care in these disciplines with the highest standard of medical treatment.

Judendorf-Straßengel is the world’s most experienced clinic in the field of automated locomotion (Lokomat therapy). “Amadeo” - the in-house developed hand robot - is already successfully used for hand and finger rehabilitation. The clinic’s “Institute for Neurological Rehabilitation and Research (INRR)” is constantly developing and improving the situation for its patients. Children’s rehabilitation is the centerpiece of the clinic.

Rehab Centers

Experts for health care
Austria’s biggest center for neurological rehabilitation

The Pirawarth clinic with its 301 beds is a competence center for neurological and orthopaedic rehabilitation. It is just a half hour drive from Vienna and yet it is already situated in the hilly landscape of southeastern Weinviertel. A perfect place to feel at home.

The clinic’s holistic treatment approach focuses on the needs of the patients. We put much emphasis on individual consultation and the best possible treatment while respecting our patients’ personal concerns. To meet these high standards, our highly-qualified and interdisciplinary team takes good care of you with a human touch.

Rehabilitation with the highest professional standards
The main goal of our holistic oriented rehabilitation treatment is to recover one’s physical and mental health as well as improve one’s quality of life. Based on your preliminary findings, a physical examination in the context of an assessment by a specialist and your personal goals, we provide a rehabilitation program that is customized to your individual requirements.

Consultation and treatment with the highest standard.

Physiko Med
Ambulant rehabilitation in Vienna
Ambulant & individual rehabilitation success

Medtour.at & Physiko Med
Physiko Med - ambulant rehabilitation in Vienna presented by medtour.at

The ambulant and individual way for your successful rehabilitation:
Physiko Med was founded 1990. It is an ambulant rehab clinic under the leadership of a specialised doctor for rehabilitation, sport and nutritional medicine in Vienna.

Medtour.at combines years of experience in health service for international patients with high-quality medicine and highest medical competence. As medical tourism advisers we stand for the highest medical quality in health service and offer 1st class medical and tourism treatments in Austria.

The Physiko Med rehab clinic is ISO 9001 certified for its outpatient care, done by specialised therapists. A doctor for orthopaedics is also available all day, providing a high level of competence for our guests from abroad.

Under the supervision of the physician there are different treatment options available depending on the needs of the patient. These include rehabilitation after surgery, conservative care of the musculoskeletal system, neurological and metabolic diseases.
Privatklinik Laßnitzhöhe
tradition, competence, humanity

The patient is the center of all efforts. Privatklinik Laßnitzhöhe offers the best conditions for rehabilitation after neurological illnesses such as strokes, craniocerebral traumas, MS or after orthopaedic operations. About 220 beds are available for the patients in single rooms and twin-bedded rooms with the highest comfort.

The junior and executive suites are a distinguished feature of the hospital. Specialists from the medical, therapeutic and nursing area always take excellent care of the patients.

Special packages are available for international patients. They include travel arrangements and support for residency formalities (e.g. visa). The clinic also has direct settlement contracts with the pension assurance institution as well as other insurance companies.

The “SANLASmed management” provides the overall organisation of medical stays in cooperation with specialists from all medical disciplines.

Thermenhof Warmbad-Villach
Therapy- and rehabilitation centre

Situated in a peaceful environment in the Warmbad-Villach health resort, just a few kilometers from Villach, Carinthia shows itself from its most beautiful side: densely wooded and with a sensational mountain panorama.

General Rehabilitation
The service range of the Thermenhof centre includes rehabilitation treatments
- after orthopaedic surgeries,
- after trauma surgery, including sports injuries,
- after neurosurgical operations,
- as well as the entire field of conservative orthopaedics for degenerative diseases of the musculoskeletal system and for peripheral neurological diseases.

The department provides the latest medical and nursing care and all therapeutic treatments, using natural medicinal deposits (acratotherm, Warmbad thermal spring, temperature 29.9 degrees celsius). Joint Commission International has accredited the department’s quality since 2005. Furthermore, we work in close cooperation with the acute care departments of Villach’s federal state hospital, the university clinics of Graz and Vienna as well as national rehab departments.

Our state-of-the-art rehabilitation clinic for neurology and orthopaedics provides all the necessary amenities for targeted improvements of your health.

A dedicated team of doctors and therapists is always at your service for the treatment of neurological diseases related to strokes, brain and spinal marrow injuries as well as inflammatory diseases such as meningitis. We also provide successful and individual treatments for orthopaedic illnesses related to endoprosthetics, inflammatory diseases of the joints and spinal column as well as intervertebral disc diseases.

Besides extensive general medical and specialist services for our patients, our service range is optimally rounded off by our wellness area.

We also welcome accompanying persons for who we provide an individual service for € 55,- per day (full board).

Lymphedema treatment
International competence centre for lymphology
Treatment - training - research

Our international competence center for lymphology is located in Walchsee, a place where other people go for their holidays. Here you will find the Wittlinger therapy centre, the Dr. Vodder Academy and the Association for Manual Lymph Drainage according to Dr. Vodder under one roof.

This combination includes treatment, training and lymphology research and guarantees state-of-the-art therapies and forms of treatment for affected patients. The therapeutic success is verifiable and objectifiable. Patients come to us after their breast and abdominal cancer surgery and they are treated with combined decongestive therapy.

The lymphedema does not have to be acquired (after surgery), congenital lymphatic vessel damages can also lead to lymphedema and need to be treated. The focal points for our individual treatments are the ‘manual lymph drainage according to Dr. Vodder’ which is a form of massage, the bandaging, skin care and exercise therapy.

فجاءة بزيارة المنتج الصحي الفريد F.X. Mayr & More بعد الخطوة الأولى نحو أسلوب حياة أكثر صحة وزراعة، والذي يمكننا ابتعاده بسهولة في حياتك اليومية بعد انتهاء إقامتك لدينا.
Rich in tradition, ancient culture and customs, this spa with the adventurous touch of its surroundings is bound to captivate its guests. An additional asset of this place is its healthy climate, not only because of its healing tunnel but also because of the region itself which is entirely free of foggy periods. The worldwide uniqueness of the health centre Bad Bleiberg is the possible usage of five special healing therapies:

- Speleotherapy (healing tunnel Rudolfschacht, Zeche Sabine and Zeche Barbara)
- Balneotherapy (thermal water from the thermal spring Rudolfstherme)
- Cryotherapy (a therapy for the whole body with a temperature of -110°Celsius)
- CO2-therapy (for grave circulatory disorders)
- Climate therapy

We have created a new and comfortable health resort with an integrated therapeutic healing spa for our guests.

Our rooms are all modern and friendly and include telephone, colour TV and radio. Furthermore we indulge our guests with an indoor swimming pool, sauna area, solarium and a steam bath.

Health and Wellness Centers

Dive in and perk up in Bad Hofgastein.

Alpentherme Gastein
Health care and wellness at the Alpentherme Gastein and rehabilitation center in Bad Hofgastein

The health care service range in the Cure & Rehabilitations Centre Bad Hofgastein is a very special blend: healing waters, a broad spectrum of therapies and medical competence guide you to your recovery and vitality in one of Austria’s most beautiful regions.

Its medical and therapeutic standards meet the highest requirements. Gastein’s thermal water - with radon as its main ingredient - in combination with a diverse range of therapies helps in cases of locomotive diseases, respiratory and skin illnesses - among many others.

As an extension of the medical service range, four specialists practice at Cure & Rehabilitation Centre Bad Hofgastein. They provide you with the best treatments for injuries after accidents, before or after surgeries as well as rehabilitation. Diagnostics for and treatment of cardiovascular diseases are also available.

The Alpentherme Gastein is directly connected with the spa resort and helps you to relax and unwind. With its various wellness and chill-out areas as well as its spacious sauna landscape the Alpentherme Gastein leaves nothing to be desired.

Warmbad thermae
The inexhaustible wealth of thermal spring water

For many years, Austria’s most southern thermal spa has been enjoying an excellent international reputation as a health and holiday resort.

Here you will find the perfect conditions for health and spa treatments. The resort’s treatments focus on restoring the mobility of the locomotor system. At the spa resort Warmbad-Villach, an extensive physiotherapeutical program with an interdisciplinary team which consists of specialists, spa physicians and a highly qualified staff, is always at your service.

The health resort’s main thermal water source provides thermal water at a constant temperature of 29.9 degrees Celsius that is rich in calcium, magnesium and hydrogen carbonate. Here you have the unique opportunity to take a soothing bath right at the source of the spring's natural water. The speciality of this acratotherm’s source is its naturally rising noble gases which flow into the pool along with the thermal water after being filtered through a pebble floor.

ManageMed Consulting
The central contact for the best medical treatment in Austria!

As experienced specialists in the health care and wellness tourism sector, we help patients from abroad to find Austria’s top hospitals, specialists as well as spa, rehabilitation and wellness facilities. We give them access to one of the best health care systems worldwide.

In the clinical sector we cooperate exclusively with renowned doctors and hospitals that are well known and certified for their high quality. These clinics offer our clients state-of-the-art medical treatment. Professional and internationally trained nursing personnel takes thoughtfully care of our clients at these institutions.

We take over the entire organization of your stay (e.g. visa, travel, hotel hospital bookings, transfers, translation services and the review of your documents). Additionally, we organize highly qualified aftercare in your home country.

We attend to your needs and wellbeing personally and are always at your service so that you can focus on your recovery, while taking care of your escort and making sure that he/she has a pleasant stay in Austria as well!

Prescan
Coordination centre for modern preventative medical examinations

Prescan is a coordination centre for modern preventative examinations: The examination program Total Body Scan® screens vital organs to detect diseases like cancer, strokes and heart attacks.

Complemented by an extensive laboratory test, the Cardiogram Plus, skin examination and further check-ups, the examination program gives you an exact picture of your health status. Prescan works with independent, internationally trained specialists, state-of-the-art technology and provides individual service for patients.

Our services go far beyond the medical field. It also includes first-class care, which is especially appreciated by patients from abroad: A personal and medically trained interpreter accompanies you to all your examinations and assumes administrative tasks so you can focus on your examinations.

Health is not a gift, it needs to be checked on a regular basis. We will be glad to advise you!

Health needs modern diagnostic methods.

Prescan
 مركز تنفيذ الفحوصات الطبية الوقائية الحديثة

يركز Prescan على تنفيذ الفحوصات الطبية الوقائية الحديثة: برنامج الفحص الطبي الموسع، Total Body Scan®، يفحص الجسم الكلي، والذي يهدف إلى إصدار الاختبارات الحيوية للكشف عن أمراض مثل السرطان، السكتات الدماغية والأزمات القلبية.

إن برنامج الفحص الطبي Plus شامل ومتقدم، يساعد على تشخيص الأمراض الجلدية والمتلازمة الإضافية، ويشمل اختبارات المظهرات العالمية الشاملة، وكل ذلك يتيح صورة دقيقة عن حالتك الصحية. يعمل مركز Prescan مع أخصائيين عالميين، مستقلين ومهرة، مع تطبيق التكنولوجيا الحديثة ويقدم خدمة شخصية للمرضى على أعلى مستوى.

لا تقتصر خدماتنا على المجال الطبي فقط وإنما تشمل أيضاً توفير أساليب الرعاية من الدورة الأولى خاصة للمرضى القادمين من الخارج؛ حيث يوفر مترجمين محترفين في مجال الرعاية الطبية للسماح بتفهم فحوصاتك واهتمامك بهدف تحسين سياق الفحوصات، وتطوير ثقة المرضى من خلال مساعدتهم على فهم فحوصاتهم.

في الصحة ليست مجرد هدية، إنها تحتاج دائماً للفحوصات المنتظمة، وسنكون في غاية السرور في إرشادك دائماً نحو الصواب!
